INTRODUCTORY.

In submitting to the public the ninth volume of the AKRON CITY DIRECTORY, the publishers feel confident that it will be received with as much favor as has been accorded to the previous issues.

The present volume shows an increase in the alphabetical portion of the work of 55 pages, while the total number of names is 12,563.

After making a liberal deduction, to allow for the duplication of firm names etc. we find that, calculating by our usual method viz. adopting the multiple 3, Akron has at the present time a population of fully 37,689. These apparently large figures are accounted for thus: In making the annual canvass we do not confine ourselves to the corporate limits of the city as is the custom of directory publishers in other cities but include the entire suburbs, which contain not only a number of manufacturing industries but the residences of a large number who work at the various shops in the city and whom we consider ourselves justified in counting as part of Akron's population. In conclusion, we congratulate our fellow-citizens on the continued prosperity of the city, which is everywhere evidenced by the number of new enterprises which have been started within the last year, and the continued activity in building operations. We are contented to let the volume rest on its merits, and take this opportunity of returning thanks for the liberal patronage bestowed upon the work.

LAKE CHAUTAUQUA.

A CHAUTAUQUA LAKE STEAMBOAT

LAKE CHAUTAUQUA is a well-known body of water in Western New York, directly on the main line of the New York, Pennsylvania & Ohio R R, midway between Cincinnati and New York, being about four hundred miles distant from either point. As a delightful inland summer resort it has a national reputation and grows more in popularity from year to year.

RECREATION A PHYSICAL NECESSITY

When Harvey discovered the circulation of the blood, the whole mass was going the rounds at the rate of seven or eight times in an hour. The heart, the lungs, the various functions of the body, the mind and the affections, were keeping up the same activity and the same bounding life. This complicated organism, working and wearing, is man.

But this was two hundred and fifty years ago, before steam and electricity appeared to quicken the pulses and urge the human machine to its utmost speed. Two hundred and fifty years ago a man wrote a letter and sent it by a messenger, who waited for a reply. One hundred years ago he sent the missive by the stage coach, and in process of time received his answer. Thirty years ago,—a wondrous stride,—he commanded the lightning to give his

message, and wrote letters no more To-day he lifts up his voice and speaks—to a hole in the wall,—and hello! it is done He does not now ask his correspondent, will you buy? will you sell? and then sit down to deliberate what he will do when the answer comes Deliberation is a word out of date. Conception and consummation are one and the same act When the machine, the man, cannot bear this strain, he drops,—on the street,—in his office chair

Fifty years ago a woman concluded to give a dinner, and ordered the beef and the raisins for mince pie; and things were in train for a sumptuous entertainment in time. To-day her husband telephones that he shall bring friends to dinner She meditates while she turns the wue upon her butcher and caterer, and orders filet of beef and sweet-breads, mushrooms and mayonnaise, and gives a sharp little ring when she tells Peter and William not to forget fresh bread and ices But her own brain must concoct the sauce piquante, and when it is over she exclaims, "I am so tired, my heart and I"

HAULING UP FOR REPAIRS

This living at the end of a telephone involves a dreadful wear and tear of the nerves

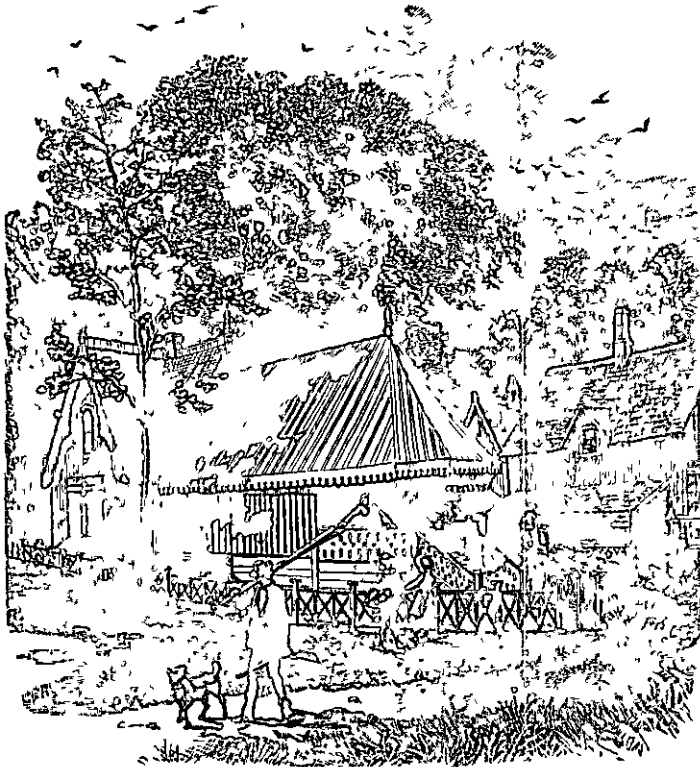

All machinery needs repair, the more multifarious its uses, the more certain to need renovation. The nineteenth century human being must virtually renew his body and recreate his mind once a year Hypophosphites, tonics and batteries may tone up the nervous system, carboic acid may nip the heads of the bacteria in malaria, and plasters and pads may patch up a man for a campaign, but it is a forlorn hope, the vital principle is not to be put up in packages.

NATURE, THE RESTORER

He must at last resort to the true physician, Dame Nature In summer she holds her court everywhere. She invites, prescribes, comforts and cures graciously and with a bountiful hand Each must choose where he will resort and do homage.

The dweller in this latitude naturally turns to the East The soft south-wind woos him in vain, charm it ever so wisely in chill November. Heated, wilted, gasping he thinks that nothing short of sitting in his skin on the North Pole will restore animation The North Pole is somewhat inaccessible and has no good hotel accommodations The age demands places for relaxation accessi-

ble, reasonably cheap and alluring. Time was when only the rich journeyed, only the unemployed were tired and needed change. Many crossed the sea to drink their health in nauseous doses at Baden or Carlsbad. But a recent writer says "there is scarcely a mineral spring in Europe that has not its counterpart in our own country, nor is there any variety of climate, any atmospheric condition, either barometrical or hygrometrical, that may not be found in the United States." And again some people do not like to have their health by the tumbler full, and thus make the stomach do double duty. They prefer to get the iron and iodine, sulphur and soda as the birds do, by breathing it. If any one has a robust constitution and a large purse he may certainly pass the summer months in Europe with great satisfaction; but also with great fatigue, and discomforts of many kinds. Says our author, a physician of eminence, "nothing so prostrates the whole physical system of persons, even in good health, as protracted visits to, and

CHAUTAQUA COTTAGE. -

R
917.71

careful study of picture-galleries, churches and palaces Not only the eye, but every muscle and nerve in the system feels the fatiguing effect impressed through the visual organs upon the brain, and thence communicated through the system

The man who is the slave of the shop or the office, of the telegraph and telephone, eleven months in the year, seeks relief and rest for the one month in which he is free.

Observation clearly demonstrates that those persons who have achieved the most enviable positions in life, or those who have attained the highest professional standing, or become the most successful in business, have been among those who have spent a portion of time away from their labors and sought recreation and social employment

It is a well-settled truth, that the human brain is so constructed that it will lose its activity in ten years of constant mental labor, or that it will increase in power for thirty or forty years in those individuals who exercise their mentality only in such manner as to allow proper intervals of rest

The frequent instances of nervous diseases, softening of the brain and kindred ailments, are induced by long and persistent application to one kind of pursuit, and the only preventive and best remedy to insure a cure is in change of climate and rest from mental labor.

In selecting a location, it is absolutely important that places be sought where there is a radical change of climate without too great a difference in temperature. And the same rule holds good for families, who should, when their circumstances will allow, seek a respite from the debilitating effect of our long and heated summer months By so doing the health of the children is improved, and their prospects of life increased

Women, especially, should take intervals of rest from the every-day humdrum of housekeeping Their labor is always of a similar kind, and their brains become fatigued from the constant wear of one portion of the organ.

It is not usually supposed that ladies require the same mental rest as men Here is a great mistake If any man in active business believes that he is more over worked than women, let him change places with the housekeeper for a month, and he will sigh for a rest from the cares of his labors

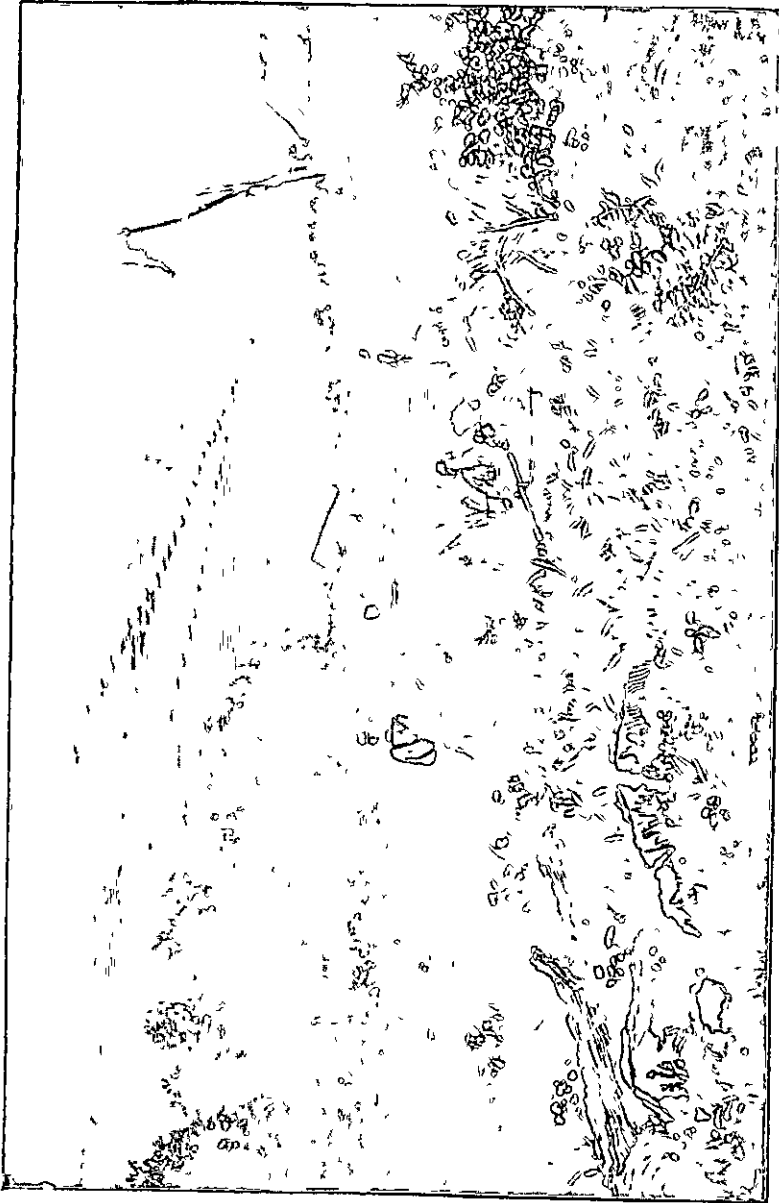

Another important question arises. Where shall the people of this and more southern locations go to spend the summer months? It is not well to go to the extreme North, or the seaside

of a cool climate. In such an event, they experience too great a change on their return in the fall, and numerous are the instances where more sickness has occurred in families who have spent their summers in those localities than if they had remained at home.

Lake Chautauqua is an admirable place for persons residing in the West and South. 1st Its altitude is sufficiently high to insure pure air, well impregnated with ozone. 2d It has the advantages of a sufficiently large body of water to absorb the impurities of the atmosphere arising from decaying vegetable matter, also furnishes a cool but not cold atmosphere at night. Ague and intermitting fevers are unknown in this locality.

Lifted 1,300 feet above the level of the sea, on a table-land midway between the Atlantic and the Mississippi river, the freshest winds that blow sweep this beautiful sheet of water. It has long been known to sportsmen, but was opened up to the traveling public by the New York, Pennsylvania & Ohio Railroad. This great trunk line passes along its southern shore and lands passengers at the most attractive spot in its whole circuit, Lakewood, from which may be had an extensive view of the lake and of the panorama of loveliness which surrounds it. The Chautauqua Circle is already famous in the literature of the country for its annual gathering of students, who meet for periodic study, as well as for the prescribed courses of reading, which are arranged in connection with this rural university, thereby diffusing pleasure and profit in many homes throughout the land.

But this is only one feature of the charms of the lake, and is only one circumstance in its wide circumference. Thousands of travelers are every year going there, simply for enjoyment and relaxation. Its shores are dotted with large hotels for the accommodation of visitors, while every year a greater number of cottages and private boarding-houses give evidence of its increasing popularity. It will, however, be many years before this lake, twenty miles in length and in some parts five miles in width, will be so taken possession of that it will not be able to afford to everyone the sort of summer entertainment he may wish. To some the *summum bonum* of a good summer resort is to be able to fish all day and not hear a sound,—to a woman, to sit in a calico gown and not see another creature. There are spots around the lake where it would seem that the foot of mortal man had seldom trod, and inlets, shoals and creeks whose waters are seldom stirred by oar or fish line.

SCENE ON THE OUTLET

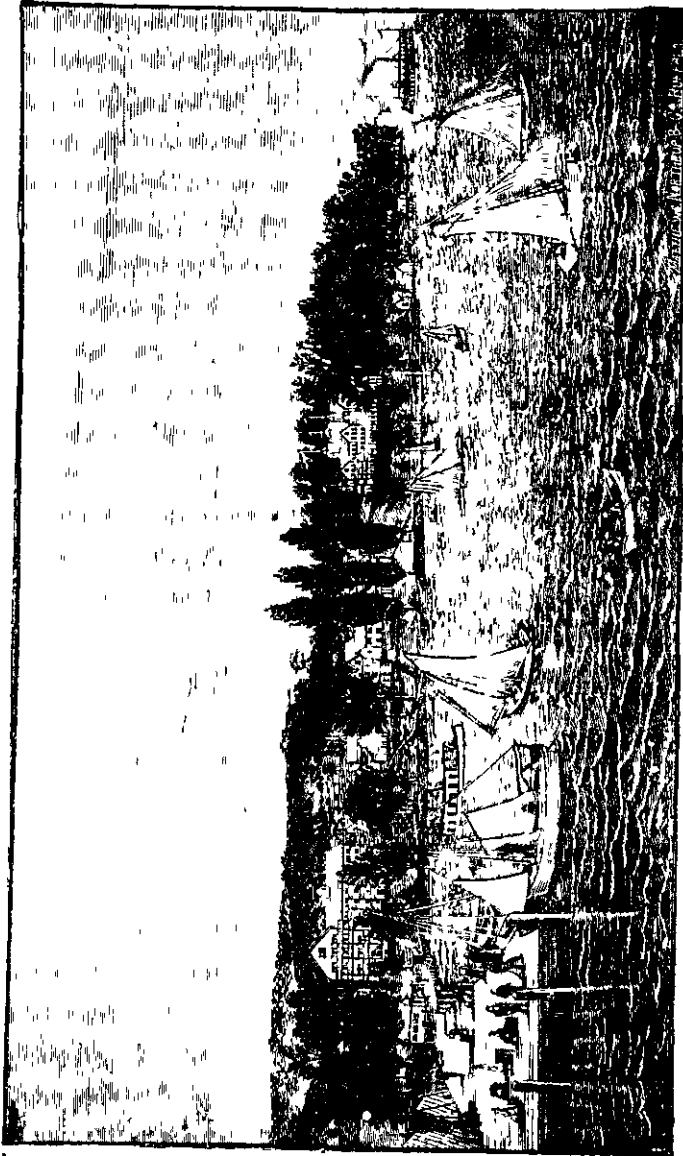

FIN AND FEATHER.

If you wish to fly from the haunts of men, hire a row-boat and equip it with rod and gun, a tin cup, and Lowell's bit of salt pork, which Uncle Zeb' said "packed handy and is good eating, because it kind o' don't digest so quick, but stays by ye, a' nourishing ye all the time" Take your time, and if you are a genuine sportsman, and have no "bowels of mercies," you will kill woodcock, ruffled grouse, squirrel and duck—both broadbill and teal Woodcock and grouse are most plentiful in August and September. The ducks come later, hovering about the lake for some weeks preparatory to their winter migrations south The fishing is superb Muskallonge are frequently taken, weighing twenty pounds Black bass are abundant, and fishing good in June and September, and in the shallow waters the sunfish and rock bass. These, with the frizzled pork, will make dinners fit for a king

But keen as are the interests of the sportsman, the time will come when you will be ready to echo Uncle Zeb. when he says—"Well it *is* lonesome Shouldn't like it. After all, the best crop a man can raise is a good crop of society. We don't live none too long anyhow, and without society a fellow couldn't tell more'n half the time whether he was alive or not" Come back at once to Lakewood to the Kent House or the Lake View House, both first-class Go where your friends are, and dance if you like There will be fine toilets of gauze and mull and passementerie, or perchance you may get a partner in sailor-blue flannel with the boatswain's belt, equally fascinating, provided she be fair, with the added charm that she can at any moment jump into a boat, take the oar and treat you to a moonlight ride on the lake

LAKEWOOD

All the passenger trains of the New York, Pennsylvania and Ohio Railroad, with their palatial Pullman cars, stop at Lakewood daily, from the East and West and South. The location of Lakewood is a peculiarly happy one, for a more beautiful spot could not be found The depot is within a convenient distance of the lake, which latter is reached by a gradually sloping velvet lawn Here are picturesque cottages by the score, erected by those who make this their summer home The little church with its spire pointing up to an unclouded azure sky, the great hotels with their cool and shady varandas, and the sparkling lake in the foreground, all form a scene which would defy the brush of a Turner to produce on canvas

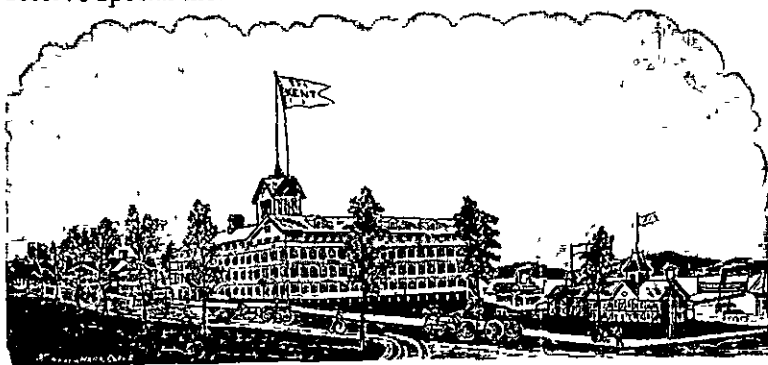

LAKWOOD, N Y , ON MAIN LINE OF THE NEW YORK, PENNSYLVANIA & OHIO RAILROAD.
Midway between Cincinnati and New York

The lake at this point is about a mile wide, the opposite shore is an ideal farming country, with rich pastures and grain fields on the slope of the hills. Looking up the lake, we see Long Point in the hazy distance, beyond which is the camp grounds of the National Sunday-school Association, and down the lake we see Fluvanna, where the outlet narrows gradually to a winding stream, with forest on either side.

The drives around Lakewood are also a source of peculiar enjoyment, and many very striking views of the lake may be obtained in this way. The entire surroundings of this charming spot are largely in its favor, while the fact that it is made the point of arrival and departure of trains on the New York, Pennsylvania & Ohio R. R., must always make it easily accessible to the visitor. The Road, in establishing its station at beautiful Lakewood, had not only an eye to the picturesque attractions of the place, but to the comfort and convenience of passengers, who are landed from the trains right into the heart of this beautiful country, within a few steps of its most commodious and attractive hotels. This fact is not to be overlooked in any estimate of the advantages of Chautauqua, and it is duly appreciated when, after a journey from the West, the traveler finds himself at once comfortably housed in the very center of the region he wishes to visit.

The Lakewood hotels are the best known in this region, and deserve special mention.

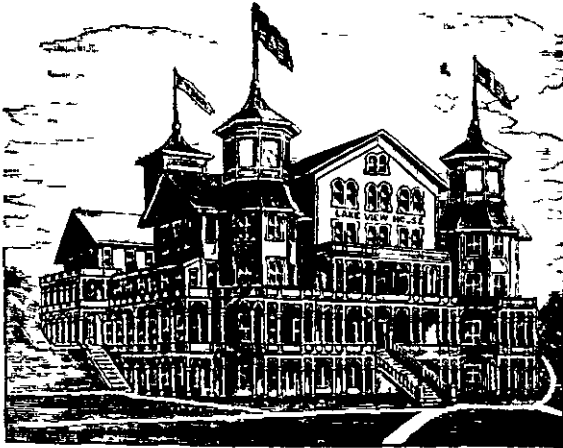

KENT HOUSE, LAKEWOOD

The Kent House is situated upon a slight elevation, from which there is a gradual descent of beautiful lawn to the lake shore. The building is four stories high, with a frontage of 500 feet on the lake. Each story is surrounded with a wide veranda, thus forming a grand covered promenade of one-half mile around

the house, and as there is no room in the house not opening directly upon these verandas, (which are connected by outside stairways leading directly to the ground, and offering absolute safety in case of fire,) every room is light and airy. The grand dining-room is 175 ft long, the largest and finest on the lake, seating over 400 people. Connected with it, and so arranged as to permit those interested to see all that is going on, is the new children's dining-room, opened last season. All rooms have gas, water, and electric-bell connections. A new ball room was opened last season, constructed in late designs, erected directly upon the lake shore, making it pleasant for dancing at all times. There is also a large roller rink, size 50 x 100 feet, just completed. The billiard hall is improved, and will be kept constantly open. All of these places of amusement are outside of the house, far enough to avoid noise and confusion to those who do not wish to join the merry-makers at any or all times, and still near enough to make access easy and agreeable in all kinds of weather. Artesian wells supply all the water used in the house. Those living in cottages universally take their meals at the Kent House, and there is always to be found in its parlors a large assemblage of the best people of our largest cities. A grand orchestra and brass band has been engaged for this season, (the finest ever yet at the lake,) which will play during meal hours, at the hops in the new ball-room, at the roller rink, and give special concerts in the parlors. The Kent House and the adjoining cottages have accommodations for 600 guests.

The Lake View House, at Lakewood, commanding a fine out-

LAKE VIEW HOUSE, LAKEWOOD.

look on the lake, has been enlarged and improved within a year or two, by the addition of two immense wings, which inclose a spacious court, with a ceiling twenty-five feet from the floor. The side of this court fronting the lake is entirely

BENL'S POINT AND THE 'NARROWS' VIEWED FROM LONG POINT

Purchase tickets to Lakewood or Jamestown, N Y, by Way of the N Y P & O R R thence by steamer

of glass, a novel feature in a summer hotel, and not without advantages on a rainy day. The rooms on the first and second floors open directly into this court. The hops of the house are held here, and the balcony around the second story affords an excellent vantage ground from which to watch the dancing. The house is lighted with gas and furnished with bath rooms and water-closets on each floor. Each room has electric call-bells and all the comforts and appliances of a well ordered house.

Boats and yachts and horses make up all the properties that the most ambitious guest will be likely to require.

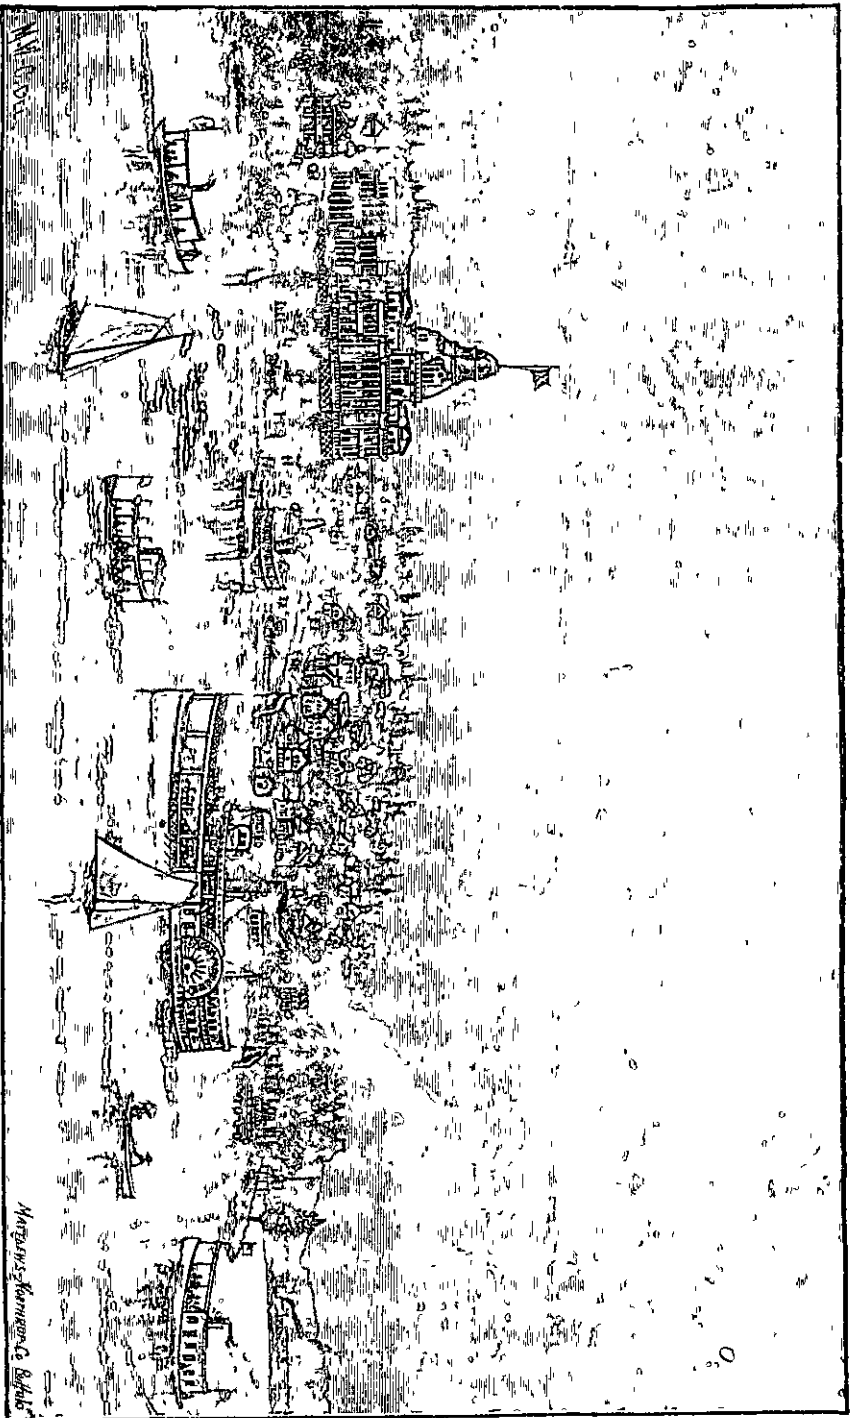

CHAUTAUQUA ASSEMBLY GROUNDS.

The famous "Summer School and Assembly" was organized here in 1874, and holds its thirteenth annual meeting in July and August of the current year. It is a vast educational, religious and recreative institution, and the "original" of all modern assemblies. Its moral atmosphere protects and builds up both parent and child. Here is freedom without license, and recreation without harmful amusements. Its society is, in the highest sense, refining, and the educational influences are manifold. The grounds cover some one hundred and thirty acres of the choicest woodland, beautifully laid out in parks, drives and walks. Here are to be seen a model of the Holy Land, lying on the shore of the lake, (which, for this purpose, represents the Mediterranean Sea,) a model of the Jewish Tabernacle, a model of Jerusalem, a sectional model of the great Pyramid, a Museum of Sacred and General Archaeology, and numerous other matters of universal interest, in the presence of which the Biblical student can, in spirit, traverse the land sanctified by the presence of our Savior.

Here is an Auditorium capable of seating 3,000 people, and a new Amphitheater which will accommodate 6,000, the Hall of Philosophy, in St Paul's Grove, the Children's Temple, the Chapel, the Normal Pavilion, etc.

The grounds and buildings will be refulgent with the electric light. In this, as in all matters concerning the comfort of the visitors, the management has placed itself in the lead.

The attractions for 1886 embrace the annual session of "The Chautauqua Teachers' Retreat," "The Chautauqua School of Languages," "The Chautauqua Sunday-school Assembly," "The Foreign Missions Institute," "The Chautauqua Musical College," "The Chautauqua School of Theology," and the various meetings connected with the "Chautauqua Literary and Scientific Circle," the "Look-Up Legion," and the "Chautauqua Young Folks'

CHAUTAQUA ASSOCIATION GROUNDS

Marysville, Washington, 1914

Reading Union " A "Chautauqua Summer School" for children will be organized, to be taught by the most accomplished instructors in the United States, which together with lectures, concerts, class drills, stereopticon exhibitions, fire-works, etc , will not only furnish an intellectual feast which can not fail to gratify even the most exacting, but instruction and entertainment will be so blended as to satisfy the cravings of all.

Boarding may be had at reasonable rates, and fine cottages rented for the season, either entire or by room, as also tents of all sizes. A government Post office has been located on the grounds, also offices of the American Express and Western Union Telegraph Companies. The Hotel Atheneum is located within the grounds, and is a model of architectural beauty. Its splendid parlors are connected with broad verandas fronting and near the lake, and it possesses dining-room capacity for some 600 people. It is elegantly furnished throughout, and is supplied with gas, electric lights, electric bells, elevator, baths, telegraph office, news-stand, barber shop, etc , in short, is metropolitan in all its appointments.

THE NEW CHAUTAUQUA

An attraction inferior to none upon the lake is added this year by the new Association Grounds at Lakewood, where not only recreation will be afforded, but where instruction will be given in the most important problems which affect man. It will be known as the New Chautauqua, or the Lakewood School of the New Theology.

The new Association is the outcome of the movement among the people toward more liberty in religious thought, and is directly the result of the ministry of the Rev D^r J G Townsend, in Jamestown. The idea was first unfolded by Dr Townsend, and from its inception it has met with so enthusiastic a reception from the people, that the success of the meetings is assured.

An organization has been perfected with the following officers: President, Charles E. Tucker, Bradford, Pa , Vice-President, Edward L Hall, Jamestown, N Y , Secretary, L F Camp, Jamestown, N Y . Treasurer, F B Bush, Jamestown, N Y , Superintendents of Instruction, J G Townsend, D. D., Jamestown, N. Y. and A A Livermore, D D, Meadville, Pa. Spacious grounds have been secured in a beautiful grove on the shores of the lake, and here lectures will be given by many master minds. The meetings will begin Saturday, July 24th, and extend through Sunday, August 7th. It is designed to give instruction in theology,

and there will be lectures upon the Bible, church history, ethnic religion, social science, labor problems, *temperance and literature*. A society will be formed somewhat after the plan of the C L S C, though different books will be used, and different fields of thought occupied. The works upon the several subjects will be by the master minds in each department, and will be non-sectarian. Circles will be organized throughout the country.

The Rev. Dr A P Peabody formerly Plumer Professor of Harvard, and who is well known on both sides of the sea, will deliver his twelve celebrated lectures upon Ethics. These will continue during the two weeks one being given daily. The Rev. Dr. Hill ex-president of Harvard will give a number of addresses upon *Christianity*, and the Rev. Dr. Cone of Buchtel College, Akron, Ohio, who has just been elected fellow of one of the royal societies of Europe, will also lecture. Theology will be the topic of several lectures by the Rev. Dr. Atwood, president of the Canton Theological School. Those by *President Livermore* of the Meadville Theological School will be upon *Hebrew Literature*. Prof Barber for many years editor of the *Unitarian Review* of Boston will deliver several lectures on *Ethnic Religions*. The Rev. Dr. Bixby of Ann Arbor, Michigan, is also included in the long list of leading men who have promised to lecture.

The sermons Sundays will be delivered by the Rev. J. G. Townsend, the Rev. Dr. George W. Cutter, pastor of the "Church of Our Father," in Buffalo and others. Dr. Townsend will also give a number of lectures upon the *New Theology*.

Among those who are expected to be present are the Rev. Dr. Thomas of Chicago, the Rev. Charles G. Ames of Philadelphia, the Rev. Dr. Boles of Boston, the Rev. Dr. Rexford of Detroit, Michigan, the Rev. Mr. Mason of Union City, Pa., and the Rev. Mr. Chase of Sherman, N. Y.

The Rev. Dr. Swing of Chicago, is an earnest advocate of the movement and has promised to be present another summer.

An alliance will be formed here among the independent churches throughout the country. These societies heretofore have had no band of union and have depended for their existence upon their pastor. Here at these association grounds young men will be educated in the principles of the *New Theology*, and sent forth to preach them to the people. The *New Chautauqua* is truly a fitting name for the place from which will proceed new principles, new ideas and new statements of old truths.

EXCURSIONS ON THE LAKE.

There is hardly a more delightful way to spend the day than in taking the steamers which, starting from Lakewood, make the circuit of the lake every day, stopping at all important points. The trips are so arranged that passengers from the railroad and sojourners at different points on the lake can go to the Chautauqua Association Grounds, attend the services, remain through the evening, and return to their hotel after the close of the evening service. This arrangement combines the pleasure of hearing and seeing all that is most attractive and stimulating in this wonderful school in the woods, without being subject to the inconvenience of living in the midst of so much excitement and stir. Printed programmes of the exercises of the whole season, including the speakers, some of them the first scholars in the land, with the topics of the lectures, hours, etc., are distributed throughout the neighborhood of the lake. These assemblies are a distinctive feature of Chautauqua, apparent by the fact that 150,000 persons have been registered as visitors in a single season. But such a non-conductor is water, that two minutes after the steamer has left the gate of these grounds, the vast auditorium and magnificent trees,

"That fane most catholic and solemn,
Which God hath planned,"

the streets of cottages, the model Jerusalem and the Park of Palestine, with all the tribes of people which pertain to them, are as far removed as if the Mediterranean flowed between

Sixteen miles away, at its southern end, the lake contracts into a stream scarcely wider than the steamer, and through the narrow, crooked arm, or outlet, for a distance of two miles, the vessel feels its way to the city of **Jamestown**, the most considerable place in this region, and directly upon the line of the New York, Pennsylvania & Ohio R. R.

After an hour's delay, long enough to give the passengers a run about the town, the boat returns through the same tortuous channel to the open lake. The shores of the lake are in some places wild and covered with primeval forest, and upon the earth

"After the flight of untold centuries
The freshness of her far beginning lies,"

and again, cultivated farms stretch off to the distant hills. From these farms the hotels and boarding-houses draw supplies of fresh vegetables and the products of the dairy and poultry yard

ITS WONDERFUL SALUBRITY

The waters of Lake Erie are seven hundred and twenty-three feet lower than those of Lake Chautauqua. The observer who realizes this fact will readily see what gives to Lake Chautauqua its wonderful salubrity.

The direction of winds in this region is from north and west, and they bring with them a cool and bracing atmosphere from the highlands which stretch from beyond the source of the Mississippi to the Rocky Mountains. In passing over Lake Superior, Lake Huron and Lake Erie these winds receive but slight increase of temperature, and the air they bring becomes freed from dust, and is charged with moisture in its long journey over the waters of the great lakes. Thus purified, it passes over Lake Chautauqua, the purest air upon the continent. It is this pure and invigorating atmosphere, playing upon one of the most beautiful sheets of water in the world, that is offered as a balm for your irritated and enfeebled lungs, for the oxygenizing of your impoverished blood, and for the building up and strengthening of weakened bodily functions during the heated season. Here you may escape miasma, mosquitos, fevers, cholera, dyspepsia, and duns. Here you may free yourself from your hay asthma, your ague chill, your liver complaints, and find a balm for lowness of spirits.

Here you may fish and hunt, and sketch and ramble, and scramble and paddle, and sail and sing, and drink from the purest and most crystal of springs, eat the finest fish, spring chickens, beef, lamb, butter and cheese to be found upon the continent.

These are the great and overwhelming advantages offered in recommending the banks of Lake Chautauqua as your summer residence.

Come and sojourn upon its grassy banks, tread its beautiful landscapes, wander in its cool mossy groves, sail upon its rippling bosom, breathe its pure elastic air and feel the languor of disease departing and the thrill of returning health in your veins. Come, and you will be amply repaid in the renewed lease of life it will give you.

HOW TO REACH LAKE CHAUTAUQUA

From Cleveland—Take the New York, Pennsylvania & Ohio R. R. and be landed at Lakewood or Jamestown without change from which points you can reach any point on the lake by steamer, affording a pleasant ride on the water. The morning train leaves Cleveland 8 25 a. m., (standard time,) reaching Lake-

wood 2 57 p.m and Jamestown 3 08 p m Parlor Car through without change. The limited express leaves Cleveland 3 00 p m., (standard time,) reaching Lakewood 8 37 p m., and Jamestown 8 45 p m Pullman Buffet Sleeping Coach through without change Also night express leaving Cleveland 11 10 p. m., reaching Lakewood 7 00 a. m and Jamestown 7 09 a. m The N Y P. & O R R is the only line from Cleveland that can land passengers at the lake without change

From Pittsburg—Passengers from Pittsburg should take the Pittsburg & Lake Erie R R via Youngstown and the N Y P & O R R or the Pittsburg & Western via Butler, thence the S & A to Shenango, thence N Y P & O R R

From Chicago—Passenger from Chicago should leave via Chicago & Atlantic R R, and go through in solid trains to Lakewood or Jamestown without change for any class. Trains leave Chicago at 3 30 p m. and 7 40 p. m daily, via Marion and N Y. P & O R R.

From Cincinnati.—There are three through trains from Cincinnati to Lakewood and Jamestown daily via N Y P & O R R with Pullman Palace Sleeping Coaches as follows Limited Express 7 45 a.m. daily, arrive Lakewood 8 37 p m, Night Express 6 45 p m daily, arrive Lakewood 7 00 a m Atlantic Express 10 00 p m, daily arrive Lakewood 2 57 p m

No other line can get you to Lakewood or any point on Lake Chautauqua without from one to three changes

From St. Louis.—Passengers from St Louis should leave on the 8 00 p m train via Ohio & Mississippi Ry and have Pullman Buffet Sleeping Coach St Louis to Lakewood without change arriving 8 37 p m following evening via Cincinnati and the N Y P & O. R R. Also 8 00 a. m via O & M arriving Lakewood 7 00 a m next morning, with Parlor Car to Cincinnati and Pullman Buffet Sleeping Coach Cincinnati to Lakewood via N. Y. P & O R R

From Indianapolis and Peoria—Leave via I. B & W. R R. and have Pullman Sleeping and Chair Car to Kent and Pullman Sleeping and regular day coaches Kent to Lakewood

From the South.—Passengers from the South should take any of the through lines from the South to Cincinnati, there connecting with the N Y. P & O R R. for Lakewood or Jamestown. Three through trains and no change of cars

The N Y P & O R R. is practically the only line to *Lake Chautauqua* and passengers should not be imposed upon by the deceptive advertising and misrepresentations of other lines Take the N Y P & O, "The Chautauqua Route" and you will make no mistake

THE PICTURESQUE ERIE.

Travelers to the East via the New York, Pennsylvania & Ohio R R pass over the New York, Lake Erie & Western R R from Salamanca and through some of the finest railroad scenery in the world. Throughout the entire length of the line from Salamanca to the seaboard, an ever-changing panorama of grand and picturesque scenery is presented, and the appreciative tourist approaches the termination of his journey with the feeling that the day has been only too short. It may be questioned whether any of the great through lines of travel in America or even in the world, affords so many strikingly beautiful scenes and such a variety of them withal as are presented by this magnificently equipped, double-tracked highway. No other road in America has such direct communications with so many of the famous resorts for tourists or traverses a region, the physical conformation of which is so creative of all that makes a journey a succession of delights. After leaving Salamanca and passing through the Cattaraugus and Alleghany Reservations, comprising several thousand acres, which have been set apart for the use of and are occupied by the Seneca nation of Indians, we arrive at Hornellsville, which is noted as being the most perfect railway dining station in the world. The trains stop half an hour, which gives the traveler ample time to refresh himself before continuing his journey. In the meantime the coaches are thoroughly swept and aired.

The ride from Hornellsville to Susquehanna, the terminus of the Susquehanna division, takes the tourist through the beautiful valleys of the Canisteo, the Chemung, and the Susquehanna—garden spots of the New York southern tier. The entire region between the two terminal points of this division, has been a fruitful and prolific provider of subjects for both pencil and pen ever since the Erie Railway opened it to the outside world, and called into existence the snug and cosy villages and populous towns that greet the traveler at intervals. Corning, Elmira, Waverly and Binghamton are notable monuments to the wealth, enterprise and thrift that characterize this portion of the Erie route.

Susquehanna, 193 miles from New York, is the junction of the Susquehanna and Delaware divisions of the Erie. One mile east of the station, the Erie leaves the Susquehanna Valley, we get the last glimpse of it at a spot which has become famous as one of the most noted landscapes in the country—the junction of the Starrucca and Susquehanna valleys, at Starrucca Viaduct. The Viaduct carries the railway over the Starrucca Creek at a height of 110 feet above it, it is 1,200 feet long, and one of the celebrated engineering feats of the day. With its grand and picturesque surroundings, the Starrucca Viaduct has been the subject of many famous paintings, among which is 'American Autumn.' From the Viaduct the road surmounts many high hills, which separate the Susquehanna and Delaware basins, and in half an hour we are in the midst of the unrivaled scenery of the Delaware Highlands. For nearly one hundred miles the roadway fol-

flows the sinuous course of the river, now skirting close to its shore, and now looking down upon its rapids, islands and eddies from high, ragged peaks,

where a way for the road had to be hewn in the solid rock. The capricious windings of the river are constantly bringing new and enchanting scenes to view—mountain, valley and glen, forest and meadow, waterfalls, leaping from summit to base of bold, rocky hills—present to the tourist a panorama of varied and beautiful scenery, that he will see on no other line of railroad in America.

There are no large towns between Susquehanna and Port Jervis, the terminus of this division, for the encroaching hills leave little room for them, but the many picturesque mountain hamlets scattered here and there add diversity to the scene, and enhance the Swiss-like character of the surroundings.

Four miles above Port Jervis the railroad crosses the Delaware and enters Orange County, New York. At Port Jervis, the Eastern division of the Erie begins. This division is the last on the line, and carries the traveler

over the Shawangunk Mountains—at one point 1,500 feet above tidewater—giving him charming glimpses of the storied Neversink Valley, takes him through the very heart of the famous dairy and stock-farming region of

Orange County, through the romantic Ramapo, Paramus and Passaic Valleys, and finally terminates his journey in the metropolis of the Union, New York City.

EUREKA SPRINGS.

Carbonated Chalybeate Mineral Water

SAEGERTOWN, PA.

A Quantitive Analysis is, Specific Gravity 1006°. One Gallon of which Contains :

	Grains		Grains
Sulphate of Soda ..	. 8	Sulphate of Potassa	12
Sulphate of Calcium .	. 6	Carbonate of Calcium .	. 4
Carbonate of Iron	40	Chloride of Soda .	. 45
Alumina .	7	Silica 9
Organic Matter	a trace		

Volume of gases in cubic inches in one gallon

Carbonic Acid Gas	.39 cubic in
Sulphuretted Hydrogen Gas .	21 cubic in

Amount 60 cubic in

The therapeutic value of the above water will be easily recognized and appreciated by the intelligent physician,

Respectfully submitted,

R A ROBERTSON, M D

The village of Saegertown is situated on the N Y P & O R R , about six miles from the city of Meadville, and one hours' ride from Greenville and Oil City, and one and one-half hours' ride from Lake Chautauqua

The hotels are within five minutes' walk from the Springs Board in private boarding houses, equally convenient, can be secured from \$3 50 to \$5 00 per week Rooms can be rented by parties wishing to board themselves, and houses can be had at reasonable rates.

MEDICAL VIRTUE

of the Eureka Springs Carbonated Chalybeate Water.

Tonic, laxative, and highly alterative, and adapted for the following diseases Dyspepsia and all stomach and liver troubles, calculous affections of the kidneys, sick headache, chronic diarrhœa, salt rheum, erysipelas, and all skin diseases

We do not claim it to be a cure all, but for the diseases enumerated we do claim it to be a specific, and it is with the greatest confidence we offer it to the afflicted, believing that all who give it a fair trial will realize its healing virtue and voluntarily contribute their testimony in its behalf Our price is lower than that of any other mineral water of value in the market, and our object is to put it within the reach of all

Persons paying full fare to Saegertown will be returned at the rate of one cent per mile to any point on the N Y P & O R R on certificate of the physician in charge, that they have been under treatment at the springs

COMPOUND CARBONATED CHALYBEATE FOUNTAINS ❁ OF ❁ HEALTH

CAMBRIDGEBORO, CRAWFORD CO, PA

THE WATER.

Its benefits are shown in Liver, Kidney and Bladder diseases. As a tonic and appetizer it invigorates the system in a very marked degree. It is Nature's diuretic, and Nature's laxative. In debilitated systems where there is a lack of iron—especially in females—internal administration of these waters, in conjunction with the baths, builds up the system very rapidly. In all disorders of the stomach—dyspepsia, indigestion, acidity, eructations, etc., these waters have no equal. The baths prove specially efficient in all forms of rheumatisms and kindred diseases, they also prove very beneficial in the different forms of skin diseases. These waters have been thoroughly tested in the past, and their success as remedial agents is established.

LOCATION.

Cambridge is a pleasant village of about 1,000 inhabitants, situated in Crawford county, fourteen miles north of Meadville, on the New York, Pennsylvania & Ohio Railroad, and is thus very convenient for its railroad facilities all through trains stopping and making connection east and west. It is also situated on the banks of French Creek, which at this point is navigable for several miles. A beautiful little steamer for pleasure purposes contributes much to the pleasant stay of guests. It contains five churches, schools of a high order and a flourishing conservatory of music. Its citizens are intelligent cultured and social. There are two first class hotels with accommodations for a large number of guests. These hotels have more than a local reputation for the pleasant courtesies extended to their guests. There are a number of livery stables and excellent country roads for driving.

Persons paying full fare to Cambridgeboro will be returned at the rate of one cent per mile to any point on the N Y, P & O R R on certificate of the physician in charge, that they have been under treatment at these Springs.

MAGNETIC SPRINGS

These Springs, located about four miles from Richwood Ohio, in Union County, have in the short space of 3 or 4 years gained quite a wide reputation, patients by the hundred having been cured by the use of these magnetic waters after they were considered by our best physicians beyond the reach of medicines.

The following are among the diseases treated *Bright's Disease of the Kidneys, Gravel,* and the various urinary affections, *Catarrh of the Bladder, Diabetes, Liver Complaint and Dyspepsia, Female Diseases, Nervous Debility,* etc.

Prof E S Wayne, of Cincinnati, Ohio, gives the following analysis of these valuable medicinal waters

	Grains		Grains
Chloride of Sodium	0 789	Bi-Carbonate of Magnesia	17 614
Sulphate of Potassa	0 223	Bi-Carbonate of Iron	0 153
Sulphate of Sodium	0 418	Alumina	0 115
Sulphate of Lime	3 271	Silicia	0 243
Sulphate of Magnesia	2 304	Organic Matter	0 669
Bi Carbonate of Lime	19 203		

Persons wishing to visit the Magnetic Springs should take the New York, Pennsylvania & Ohio R R to Richwood, Ohio, from which point a daily hack line reaches the Springs. Located at the Springs are first class hotels with telegraphic communication and all the modern conveniences. Excursion tickets to Magnetic Springs and return at reduced rates may be obtained at all offices of New York, Pennsylvania & Ohio R, R.

—New York, Pennsylvania & Ohio R. R.—

New York Lake Erie & Western Railroad Co, Lessee

After reaching Lakewood, any point on the Lake can be reached with the greatest convenience, steamboats leaving Lakewood at short intervals during the day, stopping at every point on the Lake, the "Chautauqua Assembly Grounds" etc. It will thus be seen that the way to reach any point on the Lake is to

GO TO LAKEWOOD FIRST

and there take a steamboat for the point desired—Lakewood being the distributing point for the entire Lake

Being the only line to Lakewood, the **New York, Pennsylvania & Ohio R. R.** is consequently the

"CHAUTAUQUA ROUTE,"

and is so acknowledged, carrying in evidence thereof almost the entire patronage of the Lake

Through tickets are good for stop-over at Lakewood. When passengers are ready to resume their journey, they step right into one of

PULLMAN'S BUFFET SLEEPING COACHES

—AND GO THROUGH TO—

Saratoga, Boston, New York,

AND ALL POINTS EAST.

This cannot be done by any other route, as no other road runs Through Cars or Palace Sleeping Coaches to Eastern Points through any point on *Lake Chautauqua*

FOR TICKETS to BUFFALO, NIAGARA FALLS and Return, (via Lakewood,) to LAKEWOOD and Return and to NEW YORK and all Eastern points via Lakewood or Lakewood and Niagara Falls, call at all offices of New York Pennsylvania & Ohio R. R., and at all offices of connecting lines

N H BURCH & CO'S

HOTEL BUCHEL, AKRON, O.

The Model Hotel of Ohio Opened March 17, 1884

RATES, \$2.00 PER DAY.

Hydraulic Passenger Elevator and Steam Baggage Elevator Incandescent Electric Light,
Electric Fire Alarm and Call Bells to and from all rooms Closets
and Rooms with Bath on every floor

L. S. AILES, Prop.

THE hotel accommodations of Akron had long been a disgrace to the city and the owners refused to spend a dollar in improvements. Mr. William Buchtel, believing that a new hotel was a necessity, has erected a building which is a model of beauty and convenience. This hotel, under the able management of Mr. L. S. Ailes, has become so popular that it is already too small to accommodate the rapidly increasing business; consequently an addition is being added 60x108, giving the house 56 more large and airy rooms, all to be completed by Nov. 1, 1886. The traveling public have no thanks to render the owners of the old hotels for their recent improvements, for they would have made no improvements had they not been compelled to do so; therefore, the traveling public should give the HOTEL BUCHEL their hearty support and influence.

The Akron Transfer Co. supplies a long-felt need Telephone 229.

It is not necessary "TO DIE TO WIN," if you Insure with

THE NATIONAL LIFE INSURANCE CO.,

Of Vermont. Incorporated 1848.

READ CAREFULLY WHAT A WELL-KNOWN CITIZEN SAYS

"I have three life insurance policies on the "Ten Payment Life" plan, which are now paid up and from each Company I receive the following

Mutual Life of New York—Insured \$5000	Dividend, \$ 59 00
New York Life, of New York— 4000	" 47 00
National Life, of Vermont— " 3000— { 1882	" 194 00
	" 192 00
	{ 1883

The two New York Companies have paid me about the same amount every year in dividends since their policies were paid up. THE NATIONAL HAS NEVER PAID ME LESS THAN \$96 00 ANY YEAR SINCE THE POLICY WAS PAID UP. I am glad to be able to state these facts as I consider THE NATIONAL, OF VERMONT, a conservative and ably managed company, and persons who desire the most insurance for their money, should, by all means, insure there

Truly yours,

J D KINGSLAND

Burlington, Vermont December 9 1884

I hold Mr Kingsland's letter affirming the above

J. A. SMITH, Agent,

Office 208 E Market opposite Academy of Music

THE NATIONAL writes the most liberal policy in the world and invites investigation and comparison

Annual Cash Dividends. Cash paid for surrendered Policies.

HENRY WELSCH,

CONTRACTOR AND BUILDER OF

STONE AND BRICK WORK,

Chimneys, Cisterns, Bake-Ovens, Etc.

LEAVE ORDERS AT

25 Cents Will Take You to the Depot, Telephone 229. If Not Over a Mile.

Passes Through an Ordinary Farm Gate. Requires Less Barn Room than Other Binders.

One man can fold it in five minutes.

The only machine using but one chain to run all its parts.

Cuts lower, and has less distance from knives to the canvass than any other machine.

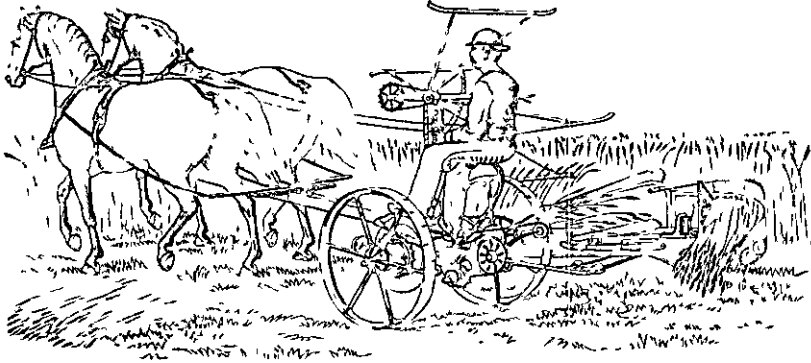

Solid Shafts in Rollers from end to end.

The lowest Elevator made with the largest drive-wheel.

FULLY GUARANTEED.

The Lightest and Easiest Running Elevator Binder in the World

The only Binder Made that is Entirely Free from Side-Draft.

NEW BUCKEYE TABLE-RAKE,

Manufactured by Aultman, Miller & Co., Akron, Ohio.

The BUCKEYE, the best Mower ever made

Its system of gearing has stood the test for thirty years. No other mower is geared on correct principles. Every other mower is geared wrong.

Don't buy a mower because it is cheap. It will not pay. The BUCKEYE will outlast any two of other makes of mowers. It will cost less for repairs, stand more grief and do more work per year for ten years than any other mower for five.

When its first set of knives are ground down to the back, the BUCKEYE will still be worth more than any one of the cheap mowers fresh from the shop. Examine the BUCKEYE, compare it with other machines, and you will be convinced of the truth of these statements.

NEW BUCKEYE LIGHT MOWER

Manufactured by Aultman, Miller & Co., Akron, Ohio.

Kinzel & Knoblow's Number is 149 S. Howard.

RECREATION is a cessation of work, and a diversion of the mind into new and pleasant channels

While it may seem like idleness to loiter around at the seashore, the country farm or among the mountains, it is a repairing and oiling of the machinery, necessary to the better accomplishment of work. If you can find rest and recreation during the sultry months, you gain thereby. A water trip best quiets the nerves, diverts the mind. We leave carping cares behind as soon as

and drift away from worries and anxieties of office, study, workshop and household, are interested in the changing scenes and in the enjoyment of solid comfort, float lazily and dream. We revel in the freedom, the dolce far niente, the pure, bracing air, the beauties of sky and sea, watch with fascination the leaping spray at the steamer's bow, fall to noting the ever-changing billows, and enter into projects for amusement started by others, or, originate them ourselves with the zest of a child.

On board a steamer we live a new, novel and fresh life, such as is never experienced on land. To those who enjoy great Nature's work, we would say

Mackinac Island is among the grandest and most romantic of spots. Visitors are voluble with story and legend of every bold cliff and cave and fallen rock around the island, and many a pencil, brush and camera are brought to bear on the wonders found. Every section of the country sends visitors annually. The invalid is attracted by the wonderful purity of the atmosphere, the climate being noted as a sanitarium for hay fever and bronchial affections. Great numbers visit this region to escape from or get relief of these maladies, many experience an improvement on entering Lake Huron. No other resort possesses such entertaining features. The surrounding country offers endless attractions to the adventurous. Gamey fish lurk in all the inland lakes and rivers with which the State of Michigan abounds. Its forests are the hiding places of furred and feathered creatures, which afford fine sport.

Mackinac Island is reached by the Detroit and Cleveland Steam Navigation Company, by the pleasant lake route, with a splendid line of palatial iron steamers, the largest, swiftest and most luxurious on fresh water, forming the only comfortable route to this island resort. These floating palaces were recently built especially for the summer tourists travel. The forward and after saloons, in mahogany and walnut respectively, are magnificently appointed and tastefully decorated, and their elegant rooms and parlors are replete with modern improvements. The lower saloons are devoted to dining halls, which entirely separate the culinary departments from the main saloons, a desirable feature only possible on these large side-wheel steamers. Their bill of fare, which is equal to that of any first-class hotel, includes all the luxuries of the season, and the price charged barely meets the outlay. Berths are in rooms, an upper, single width, and a lower, double width, in each, are furnished with wire and hair mattresses and Pullman blankets. These steamers have water tight compartments, and their feathering paddles give unusual speed, without jar or noise. This water trip cannot be excelled anywhere, and the round trip affords a daylight view of all the route. No more comfortable place can be found outside of one's own home in which to spend the sultry days, than on board these splendidly appointed steamers. The changing scenes and fresh, bracing air, will benefit many who vainly seek relief at physicians' hands, and physicians urgently recommend this particular trip.

Take the Detroit & Cleveland Steam Navigation Co.'s Palace Side-Wheel Steamers,

These steamers stop at the island both ways, giving those who wish to return on the same trip, from four to six hours in which to view the curiosities and wonders, or, you can return by one of them every thirty-six hours. Tickets for transportation can be procured from any ticket agent. Round trip tickets are good for the season. The round trip occupies four and one-half days from Cleveland, or two and three-quarters days from Detroit. The few landings made en route are just sufficient to interest without being tedious. Some of your neighbors have certainly made this trip. Enquire about it.

The Cost from Cleveland—This item has received our thoughtful consideration, and is the least possible to insure complete comfort, tickets covering transportation being only \$4 50 one way, or \$7 00 round trip, (half fare for children between five and twelve years of age.) Meals are 50 cents each, the same for children over three years old, under that age 25 cents, and for the first table. The running time, Cleveland to Mackinac, includes five meals at 50 cents each, or \$2 50 each way. Some passengers bring their own lunch. An upper berth of single width is \$2 00, a lower berth of double width \$3 00. Each room will accommodate three persons, by two occupying the lower berth. Put the items together, say for

	Single Trip	Round Trip
Transportation	\$ 4 50	\$ 7 00
5 meals at 50 cents each	2 50	5 00
An upper berth for the trip	2 00	4 00
	<hr/>	<hr/>
Total with upper berth	\$9 00	\$16 00
Extra for a lower berth	1 00	2 00
	<hr/>	<hr/>
Total with lower berth	\$10 00	\$18 00
Two persons in one room (\$9 and \$10)	\$19 00	\$34 00 or \$17 00 each
Three persons in one room add the transportation and meals only for the extra person	\$ 7 00	\$ 12 00
Total cost, Cleveland to Mackinac	<hr/>	<hr/>
for three persons occupying but one room	\$26 00	\$46 00 or \$15 34 each

This delightful trip by water of 940 miles in the round trip, occupies 4½ days, costing only \$16 00 to \$18 00, or about \$3 75 per day. You cannot go anywhere and compass so much enjoyment and solid comfort by the way. By rail you reach Mackinac a few hours earlier possibly, which is all that can be said in its favor, and is of the least consequence when seeking, pleasure, rest and recreation. It is certainly hot and dusty, you are cramped for room, and the little strength you start with is likely to be used up, especially is this the case with ladies and children. A summer trip should be planned to get all the quiet and fresh air possible. Why do you leave home at all? Simply to reverse the excitement of business cares, the bustle, hurry and rush. Such complete relief is only found by taking a water trip, the scenery is varied and attractive, and there is ample time for a good look at every interesting object. One way by steamer would be better than all rail. The outside expenses by rail will pay the cost by water. Have you taken this view of the matter?

Steamers City of Cleveland and City of Detroit form the Lake Erie Division with a nightly service (Sundays excepted), leave Cleveland at 20 30 o'clock, arrive at Detroit the following morning at 5 30 o'clock. Returning, leave Detroit at 22 00 o'clock, arrive Cleveland 5 30 o'clock, standard time. The fare between the two cities is \$2 25 single trip, which is one-half of rail fare, or \$4 00 round trip. Upper berths are \$1 00, lower berths \$1 50. Among the advanced steps taken by this Company is that of not including the cost of berths in the ticket fare, which happily disposes of the vexatious question, how to best care for the comfort of our patrons. Commercial travelers, usually confined to the hot, dusty noisy rail car, avail themselves of the charming quiet, cool, fresh air and the luxury of a full night's rest afforded by this night line by water.

Passengers can time it to make close connections at Detroit with steamers City of Mackinac and City of Alpena, which form the Lake Huron Division and leave every Wednesday and Friday mornings at 10 o'clock, Monday and Saturday nights at 22 00 o'clock for Mackinac and principal Lake Huron ports. The quickest trip and closest connection is made by taking steamer City of Cleveland Tuesday or Thursday evening from Cleveland. Breakfast on board before reaching the Company's wharf.

The Cost from Detroit—Transportation is \$3 00 single, or \$5 00 round trip. The running time includes four meals at 50 cents, or \$2 00 each way. An upper berth of single width is \$1 00, a lower berth of double width is \$1 50 for the trip.

Put these items together, say for

	Single Trip	Round Trip
Transportation	\$ 3 00	\$ 5 00
4 meals at 50 cents each	2 00	4 00
An upper berth for the trip	1 00	2 00
	<hr/>	<hr/>
Total with upper berth	\$ 6 00	\$ 11 00
Extra for a lower berth	50	1 00
	<hr/>	<hr/>
Total with lower berth	\$ 6 50	\$12 00
Two persons in one room (\$6 00 and \$6 50)	12 50	23 00 or \$11 50 each
Three persons in one room, add transportation and meals only for the extra person	5 00	9 00
Total cost Detroit to Mackinac	<hr/>	<hr/>
for three persons occupying but one room	\$ 17 50	\$32 00 or \$10 67 each

A single individual desiring to occupy a room by himself, can arrange for it at an advance of the above prices. Meals and berths are arranged for exclusively by the company.

This delightful trip from Detroit to Mackinac by water, a distance of 740 miles in the round trip, occupying 2½ days, costing only \$11 00 or \$12 00, or about \$4 00 per day, is within the reach of a large number who make a practice of leaving home for a short time during the summer months.

It is not expensive by steamer.

These steamers being side-wheelers and large, afford the utmost comfort.

Parties who intend taking the Wednesday or Friday morning steamer, and arrive in Detroit Tuesday or Thursday evening, will be accommodated with rooms for those nights without extra charge, if applied for early in the evening at the General Passenger Office.

The Trip to Mackinac. The steamer City of Cleveland or City of Detroit leaves the Company's wharf, 23 River street, Cleveland, at 20 30 o'clock. Fifteen minutes are consumed in getting out of the river. A bright light on the port bow marks the crib built as a protection to the lake tunnel through which the city receives its water supply. From the end of the piers our steamer heads for Point Pelee Light, sometimes called the Dummy, which is fifty miles from Cleveland and sixty from Detroit. Point Pelee is a headland on the Canadian shore, projecting several miles into the lake at the entrance to Pigeon Bay, and with the many islands in the vicinity, form the most picturesque scenery on Lake Erie. We then head for Point Pelee Island Light. This island contains a few inhabitants, and abounds in red cedar and fine limestone. Several small islands lie to the south, called East Middle and West Sister, Hen and Chickens, North, Middle and South Bass, Put-In-Bay and Kelley's island, the latter famous for its grape culture and native wines. From Point Pelee Island we run across Pigeon Bay to Colchester light ship, then to Bar Point light ship near the entrance to Detroit river. If you care to rise at this hour—about four—you will be well repaid by the early morning trip up the river. The river is twenty-seven miles long, and one-half to three miles wide, with a current of three miles per hour.

On the left, just before reaching Detroit, is Fort Wayne, which is garrisoned and mounted with heavy ordnance. We land at the Michigan Central railroad depot, at 5 30 o'clock in the morning, for passengers for the interior who go by rail. Mackinac passengers have breakfast on this steamer, after which we proceed to the Company's Wayne street wharf, where on Wednesday and Friday mornings the steamer City of Mackinac or City of Alpena are found nearly ready to sail. Mondays and Saturdays they do not leave until night, which gives an excellent opportunity to view the beauties of Detroit.

A trip of thirty hours by the City of Mackinac Wednesday mornings at 10 o'clock, and Saturday nights at 22 o'clock, or the City of Alpena Monday nights at 22 o'clock, and Friday mornings at 10 o'clock brings you to the great historic summer resort and sanitarium, Mackinac Island. At the hour of departure from Detroit our steamer springs on the stern line, and swings out towards the middle of the river, clear of all obstructions, and in a moment is

under full speed Taking the channel on the east or Canadian side of Belle Isle Park, our course lies straight across Lake St Clair, which is 22 miles long and 22 wide, to the St Clair Flats The entrance to St Clair river through the narrow winding channels at this point was formerly attended with great danger To improve and shorten the entrance, the U S Government constructed a ship canal, which was completed in 1871, at a cost of \$653,550 It is 8,200 feet long, 200 feet wide, and 16 feet deep

The St Clair Flats belong to the government, and those who have built cottages, hotels and club houses, hold possession by the right of Squatter Sovereignty only The buildings are set on dry land, made with earth dredged from around each site Before many years the bank on the American side will be lined with public and private resorts The St Clair river is 48 miles long, $1\frac{1}{2}$ wide, and is the connecting link between the great upper and lower lakes, the water of which will pass over Niagara Falls and down the St Lawrence river a few weeks hence Unlike the great Mississippi, the beautiful Hudson, and other famous rivers, the waters of the St Clair are always clear Not only does the traffic upon this river impress one with the vastness of the commerce of the great lakes, but its continually changing panoramic views produce a lasting effect on the mind A pen description can scarcely do justice to this magnificent stream, which possesses a magnetic attraction that of itself draws pleasure and health seekers to its shores

It is the finest and purest stream of water in the world, the pride of the people who reside on its banks, and the admiration of tourists Those steamers stop on the river at Marine City and St Clair on the up trip only Port Huron is an important distributing point for the company's business to and from upper ports and points in the interior of Canada and Michigan From Port Huron to the lake the river narrows, and the large volume of water poured into Lake Erie, causes a strong, rapid current Passengers who are destined for Goderich and the Manitoba Country leave us here and cross the river to take the Sarnia line of steamers The steamers do not stop at Fort Gratiot, as passengers who have come from Montreal and other points in Canada are taken by the Grand Trunk railway to Port Huron only a mile below The steamers City of Mackinac and City of Alpena leave Port Huron going north Wednesday and Friday evenings at 16 30 o'clock, and Tuesday and Sunday mornings at 7 00 o'clock

There has been so much of interest to take the attention for the past six hours that the trip through the lake is a pleasant relief From this out all points of interest are seen on the port side, the Canadian shore being far away We get outside, and from "abreast" of Fort Gratiot light the steamer is put on her course for $3\frac{1}{2}$ hours, which brings us to within 5 miles of Sand Beach, when we "haul in" for the harbor of refuge The captain, who likes "lots of sea room," keeps well out into the lake These large, iron steamers are not obliged to conform to the old adage, "Small boats must keep near the shore"

A short stay at this port, and our steamer resumes her course Five minutes takes us outside the breakwater, and we head for Point Au Barques light, which is reached in one hour This point is at the entrance to Saginaw Bay, which is crossed in two and one half hours, a distance of 45 miles This is the only stretch where land is lost sight of

After passing this light, two trails of black smoke may be observed on the horizon It comes from a sister steamer, which is due to pass at this half-way place Officers and passengers are interested, and as the steamers pass, exchange a salute of whistles, shouts and waving of handkerchiefs It is only for an instant, both are running at high speed, and are soon far apart Our steamer's speed has brought into view the distant smoke of another steamer, going our way, she left Detroit twelve or fourteen hours ahead of us We are fast overhauling her, and passengers become interested as they notice that great clouds of black smoke are thrown out more frequently from her one smoke-stack, in the vain effort to keep away from us The fact is, the Detroit and Cleveland Steam Navigation Company's steamers are expected to pass everything they meet without extra effort

"See! we are gaining on her!" "Yes, we will pass her within fifteen minutes"

"How fast are we going?" "Sixteen or seventeen miles an hour"

"How fast are they?" "Ten or twelve miles an hour Some are not over eight"

"Do they carry passengers?" "A few They run into small ports that this line doesn't touch, and because it was thought, naturally, that leaving twelve hours earlier, they

The Detroit & Cleveland Steam Navigation Co.'s Steamers Every Week Day

would arrive at their destination as much in advance, but we will get through first, nevertheless, and this steamer on her return trip, will meet her again somewhere out in the lake, still working her way up slowly "

"Why, our steamer must get back to Detroit again a long way ahead!" "Oh, yes, she'll make two round trips while the other makes one. In the fall when the weather is rough, the steamers of this line run in and out of their ports about on time, leaving other steamers tied up to a wharf for favorable weather, while they are making one or two round trips "

"Then passengers miss it by taking any but this line?" "It makes no difference how anxious you are to get through, it's better to wait for the City of Mackinac or City of Alpena. You'll arrive at Mackinac Island ahead, every time, and even at Alpena as soon. When the Detroit and Cleveland Steam Navigation Company first established their line to Mackinac three years ago, with their elegant steamer City of Alpena (then called City of Cleveland) it was regarded as an experiment only, and short lived, the public were consequently slow in giving their hearty support to so much enterprise. The Company demonstrated their own confidence, however, by contracting for still another iron steamer of equal elegance, the City of Mackinac, which was put into commission the following season. These two beautiful steamers have now become household words, not only among the people along their route, but among the tourist public from distant parts, until their fame has reached all portions of our country and Canada, and the Company's methods and business principles have built up an important traffic in a wonderfully short time. But here we go past our friend, like an arrow shot from a bow, the craft soon becomes a mere speck, and our steamer is suddenly headed towards the shore for Oscoda. The arrivals of the steamers of this line are always an attraction for the people along the shore. Leaving the wharf again the steamer backs out for a quarter of a mile into the lake. The wheelsman throws his wheel over hard-a-port, and we run two miles straight out from the wharf in order to clear Miller's point, and a series of shoals extending from the main land, then throwing the wheel a-starboard, head for Harrisville. When directly opposite, she is headed at right angles from her course for the wharf. But few lake ports have a harbor, and are obliged to build piers out into the open lake. Leaving the wharf again, we pass Sturgeon Point Light, then South Point, and when abreast of Thunder Bay river, shift the course a few points, and run into the river for Alpena.

How long will it take to reach the wharf? We can give no time as it depends altogether on the condition of things. The lumber kings may have been running logs down to their mills and choked it up, and some little time may be lost finding a tug to pull us in. While the city government clears up and improves the highways through town, their single, narrow highway of water is neglected, and the steam craft who serve them, unjustly suffer a heavy expense for tugs, broken wheels and loss of time.

There is a steamer close by us, she is lying still as though waiting for something. What does it mean? It is simply one of those cases where there is but little system used in the navigation of vessels, and although you can see by the moonlight that there is a broad expanse of water in the bay, still the safe channel is somewhat narrow, and unless steamers are careful to run in by a proper course, there is a chance of getting aground. Our friend is not sure of his bearings, and is waiting to follow us in, taking advantage of our courses. You may notice this lack of confidence frequently. Four officers are constantly watching the course of our steamer, and any variation would receive their prompt attention. This river is an important factor in the prosperity of Alpena. Approaching it by water the view is one which, though it may disappoint the searcher for the picturesque, means to the business man energy, bustling life, and commercial prosperity. The singing saws, rattling trucks, noisy mill engines, and numberless steam and sailing vessels passing in and out cannot but give to the practical observer the impression of a flourishing town, and indeed a happier combination of fertile resources and undaunted energy than is centered in this pleasant little city of the lakes would be hard to find. Lake captains say that during heavy fogs in the day time, the song of the saws, unlike the mythical siren lays that lured sailors to destruction, often helps them to find the entrance. While our steamer is discharging freight it will be interesting to take a stroll through the town, but keep watch of the whistle which is sounded for her departure.

Between Detroit and Cleveland. Four times each week between Detroit and Mackinac.

Our company has been considerably reduced, and as preparations are going on for leaving port again, we find a new order of things. With care the steamer worked her way into the river, but it is another thing to get her out again. Between the floating logs and the crowded river, which is too narrow to admit of winding around, it becomes necessary to employ a tug, which takes our line and tows us out stern first, until clear of the piers, and room enough is found to handle the steamer. Our course lies well out into the lake, with the shore in sight all the way, and is a most interesting trip. On parting with the tug, our steamer keeps the shore aboard three miles away, giving the reefs of North Point, which extend two miles from land about the same distance. We round Thunder Bay Island Light as we come abreast of it, giving a wide berth to the shoals at the foot of the island, then come abreast of the light a second time, and resume our course northward. Many a craft has come to grief at this point, from over anxiety to get on her course. Life saving stations are located near this light, also at Middle Island and Forty Mile Point, in Hammond's Bay, at the north, and at Sturgeon Point, Ottawa Point, Port Austin and Point Aux Barques on the south.

Off our course, six miles to the north, when abreast of Middle Island, lies False Presque Isle, which has a fine lake. The bold, abrupt shore of Presque Isle admits of running close in, and affords a fine view. We make a short call at Rogers City. Spectacle Reef Light, seen in the distance, is most romantically located. Out by itself on a small flat rock, ten miles from shore, this light stands one hundred feet above the waters of the lake.

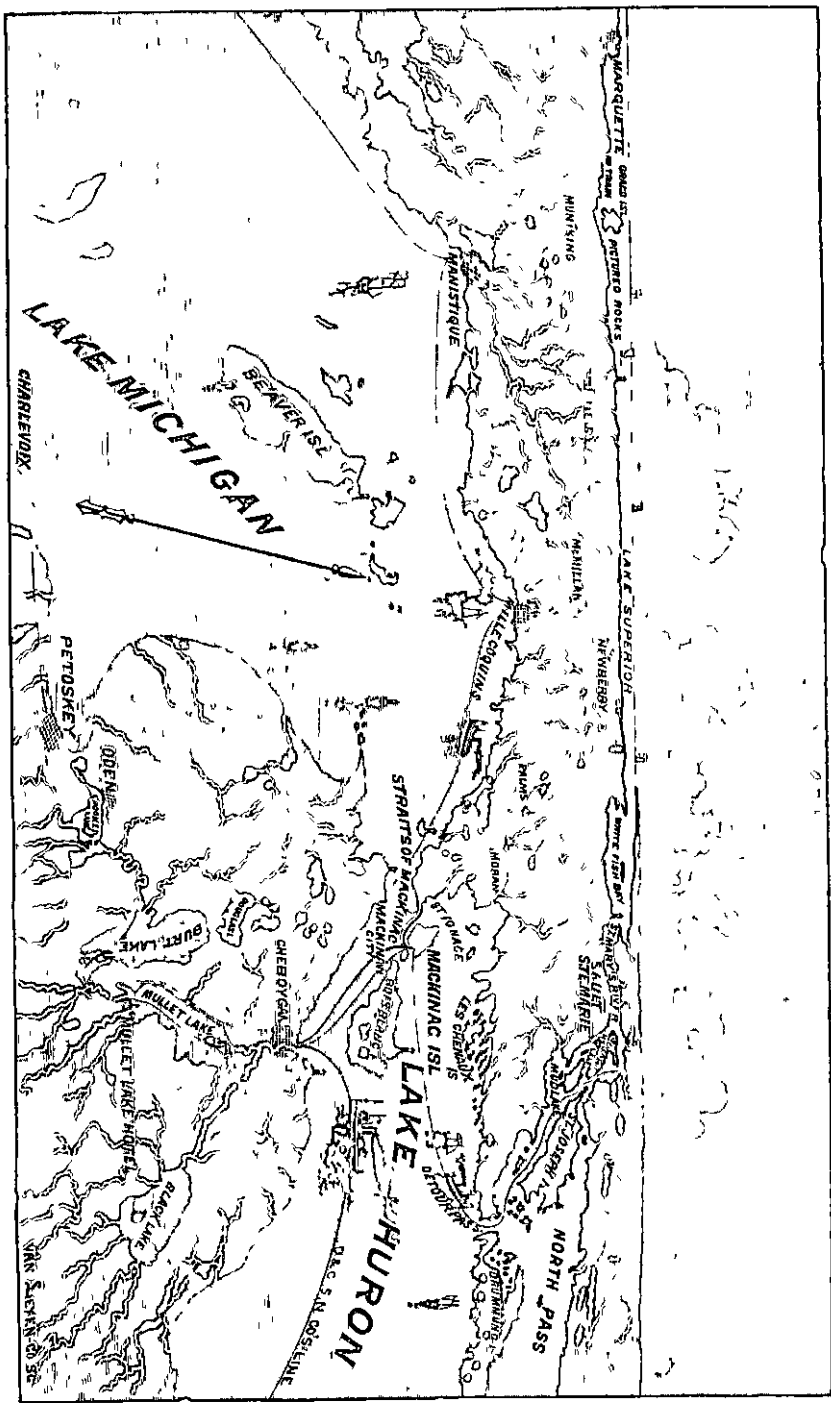

Suddenly the order comes "Starboard," and as the steamer's bow gradually turns towards the shore, Cheboygan river unexpectedly opens up to view, and we plow our way among lumber piles and floating logs, which so block the harbor at times that the services of another tug is required to take us in and out. Propellers, with their wheels less exposed, make things lively, and take out logs, boom and all into the lake. Here is an instance where it would seem that "might makes right," the pleasure of the lumber kings being more potent at Cheboygan than the local government, which they are largely instrumental in creating. Were a lot of farm wagons to block their street, the owners would soon be brought to account from these same obstructionists, but the shipping, the best element of their prosperity, must bear these indignities without redress. On arriving at the wharf, many passengers for Petoskey leave us and take the pleasant inland route through the crooked lakes and rivers. It is a novel trip, without it those who make their first visit to Mackinac fall short of a complete tour, and in connection with the Detroit and Cleveland Steam Navigation Company, it forms the only attractive and comfortable route from the east and south to this paradise for rest and recreation. Some make their first visit to Mackinac and take the inland route from there, or go down by rail at their leisure.

As the whistle sounds the warning of departure, stragglers hasten on board, the gang plank is hauled in, and the steamer, tied to the wharf by a stern line, and laboring hard with the engine, slowly swings round in the narrow river, and works her way into the lake, or is towed out to the dummy light. Rounding this, we head for Mackinac Island, which looms up sixteen miles away. Its magnetic influence seems to be felt even at this distance. There is much to interest in this short run. A landscape of unrivaled beauty is spread out before us. On the port bow is seen Mackinac City, and farther on to the northwest looms up on the horizon the island of St. Helena.

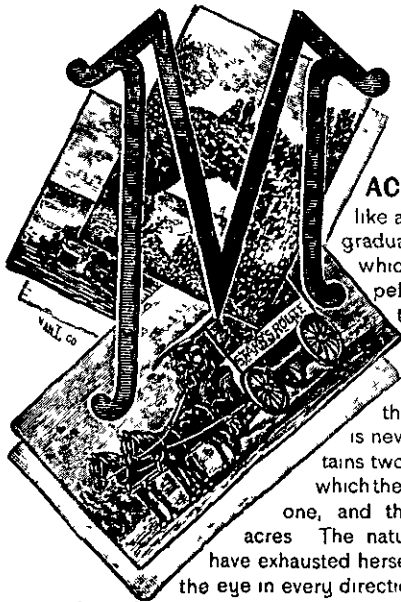

The many trails of smoke in the distance are from steamers passing to and from Lake Michigan. Directly ahead are Rabbit's Back and the highlands of St. Ignace, at whose feet lies the town, apparently walled in by the Martel iron furnace on the left and ore docks on the right. On the starboard bow we see what seems to be one long, continuous stretch of shore, but which breaks away as we approach, and proves to be Bois Blanc, (Bob low) Round and Mackinac Islands. In just fifty minutes from the Dummy, the captain is on a sharp look-out for the glimpse of Bois Blanc Light, (or its flash by night) which, being on the farther side of the island, can only be seen for a moment as we pass the intervening water to Round Island. On its reappearance on the other side of Round Island, the course is changed, and Mackinac Island and village are distinctly seen, another change, and the steamer, with a sudden turn swings quickly and gracefully into the crescent bay, upon whose shores once dwelt the red-skinned Ottawa, and about whose island home, rising three hundred feet above the clear, blue waters, still cluster the mystic halo of song, romance and legend.

The first-class service of the Detroit and Cleveland Steam Navigation Company's

Bird's Eye View of the Straits of Mackinac, showing the Inland route, Mackinac to Petoskey, and Sault Ste Marie

Steamers is unparalleled for Luxury, Comfort and Economy.

ACKINAC ISLAND, the rock girl, fairy isle, sitting like an emerald gem in the clear, pellucid wave, rises gradually and majestically from the crystal waters, which cover but cannot conceal the glistening, white pebbly depths beneath. It is the central point of the three great lakes. It knows no land breeze, hence the winds are always cool and refreshing, and seem incessantly tossing balls at each other. They no sooner cease blowing from Lake Michigan than they come from Lake Huron, and Lake Superior is never behind in the contest. Mackinac Island contains two thousand two hundred and twenty one acres, of which the national park comprises eight hundred and twenty one, and the military reservation one hundred and three acres. The natural scenery is unsurpassed. Nature seems to have exhausted herself in the manifold objects of interest which meet the eye in every direction. The lover of Mother Earth will hardly grow

wearied of wandering through its shaded glens, and climbing over its rugged rocks, each day bringing to light some new object of beauty and interest. Longfellow, in his poem of "Hiawatha" has put into English verse some of its wild Indian legends, which people every rock and glen with spectral habitants. Hiawatha is the Mena bosho of the Algonquins, and the Island of Mackinac was considered his birthplace.

If the poetic muses are ever to have a new Parnassus in America, they should certainly fix on Mackinac Island. Hygeia, too, should place her temple here, for it is one of the purest, driest, clearest and most healthful of atmospheres. The Island shows unmistakable evidence of the water having once been two hundred and fifty feet above its present line. It is a mooted question whether the lake has fallen from its original level, or the island has, from some cause, been lifted up. Springs of water, clear and cold, may be found at the base of the high cliffs, and scattered through other localities.

Mackinac village is a perfect curiosity in itself. Situated at the foot of the bluff, upon the brow of which stands the fort, it extends for a distance of a mile along the beach. The buildings are a mixture of the modern and antique, some of which were brought from Old Mackinaw when the town and fort were removed from that point after the massacre of June 4, 1763. Many of the fences are of the original palisade style.

Schoolcraft, who visited it in 1820, says "Nothing can exceed the beauty of this island." It is a mass of calcareous rock, rising from the bed of Lake Huron, and reaching a height of more than three hundred feet above the water. Some of its cliffs shoot up perpendicularly, and tower in pinnacles like half ruined gothic steeples. It is cavernous in some places, and in these caverns the ancient Indians were wont to place their dead. Portions of the beach are level, and well adapted to landing from boats. The harbor at the south end is a little gem. In it, vessels can anchor and be sure of a holding, and around it, the little old fashioned French town nestles in primitive style, while above frowns the fort, its white walls gleaming in the sun. The whole area of the island is one labyrinth of curious glens and valleys. Old fields appear in spots which were formerly cultivated by Indians. In some of them are circles of gathered stones, as if the Druids themselves had dwelt there. The soil, though rough, is fertile. The Island was formerly covered with a dense growth of rock maple, oak, iron wood, etc., and there are still parts of this ancient forest left, but all the southern limits exhibit a young growth. There are walks and winding paths of the most romantic character among its hills and precipices. From the eminences overlooking the lake can be seen magnificent views of almost illimitable extent.

You will make no mistake if you go a little out of your way

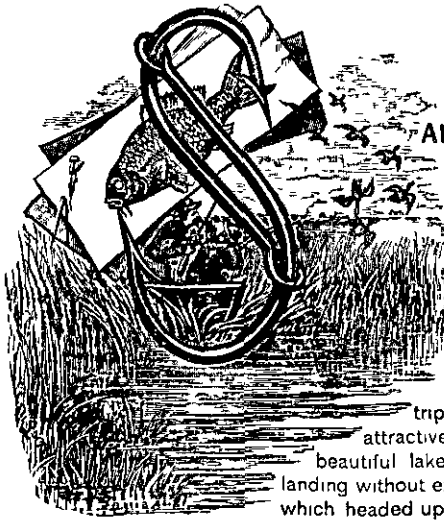

The late Dr Drake says "The island is the last, and, of the whole, the most important summer resort to which we can direct the attention of the infirm or the fashionable. The living streams of pure water, cooled down to the temperature of 44°, gush from the lime rock precipices, and an atmosphere never sultry or malarious, supersedes all necessity for nauseating iron, sulphur and epsom salts. As a health resort it is unsurpassed. Its cool air and pure water are just what are needed to bring back the glow of health to the faded cheek, and send the warm currents of life dancing through the system with youthful vigor." Its natural beauties and historic associations, together with the innumerable lesser attractions which cluster round about, serve to furnish visitors with so much entertainment and variety for either the robust or weakly ones, that ennui which eventually is felt at most resorts need not be experienced here. In Mackinac you eat with a new relish, and sleep like a child. You row, or ramble, scarcely able to keep your buoyancy within bounds. Dr Mills, once post surgeon at Mackinac, says "No better place can be found for sickly girls and puny boys, for worn out men and women, whether from overworked brain or muscle, or for those inclined to hypochondria. A change from the tiresome sameness of home scenes cannot fail to benefit all. From the hour of entering Lake Huron, your feelings will indicate that you have passed beyond the reign of miasma, fever, dyspepsia, blue devils and duns, and you look back upon the whole of them with gay indifference, or a feeling of good-natured contempt, as every turn of the steamer's wheel carries you farther into the temperate and genial climate of the lakes, and away from your perplexities. Under these influences real diseases may abate, and the imaginary ones be forgotten. In the celebrated white fish (classical name, coregonus albus, signifying food of the nymphs), is found a native whose acquaintance is liable to but one objection, that of destroying the taste for any other fish, and which, with the trout and potatoes of the island render all foreign delicacies superfluous. We would caution the gourmand, however, against an excessive use of trout, which are said to produce drowsiness, for those who visit Mackinac should be wide awake, lest some scene of interest should pass unobserved.

Besides the agreeable change of climate on reaching Mackinac, there is the new sensation to one who has not before enjoyed the novelty of an insular life, of having found an island retreat. To his jaded sensibilities all around him is fresh, a feeling of security comes over him, and when, from the rocky battlements of the fort, he looks down on the surrounding waters, they seem a bulwark of defense against the host of annoyances from which he has sought a refuge. Thus the curative state of mind begins to act on the body from the first moment, and this salutary mental excitement will not soon die away, for the historic associations, not less than the surrounding scenery, are well fitted to maintain it, and to make the invalid forget his ailments. Dr Mann says, "A few whiffs of the air would make your lungs give a hygienic laugh. This air must have been left clear out of Eden, and did not get cursed. Children are crazy with animal spirits, and eat in such a way as to demonstrate the paradox that the quantity contained may be greater than the container." These extracts will no doubt meet with a hearty response from thousands who have visited Mackinac.

At watering-places generally, all the features of the surrounding scenery are soon familiarized to the eye, which then merely wanders over the commingled throngs of coquettes, dandies, dancers and idlers, and soon returns to inspect the real or fancied infirmities of its possessor. A visit to Mackinac reverses all this. The attractions of the surrounding region are of a different and more wholesome kind, and draw to them those who seek health and recreation, and offer a delightful hot weather asylum to all who need to escape from crowded cities or a sultry climate. Besides this, the voyage imparts a pleasing excitement to the faculty of observation, curiosity is stirred up to the highest pitch, and pleasantly gratified by the hourly unfolding of fresh scenes of nature, some new blending of land and water, a group of islands different from the last, or a shifting series of painted clouds seen in the kaleidoscope of heaven afford constant variety, while the frequent trips of the Detroit and Cleveland Steam Navigation Company's steamers enable you to return as soon as desired.

Constance Fenimore Woolson knew the charm of the place when she made it the scene of so many romances, among them being the novel "Anne," and the short sketches, "Flower of the Snows," "The Old Agency," "Jeannette," and "Fairy Island."

To reach the Detroit & Cleveland Steam Navigation Co.'s Steamers.

AULT ST. MARIE, via Petoskey and Mackinac Island. One of the grandest trips in the world. How B and W spent a week. The beautiful steamer "City of Mackinac" left Detroit at 22 o'clock Saturday night, landing us in Cheboygan Monday morning, at 5 o'clock. A stroll through the town gave an appetite for breakfast, which we obtained at the hotel near by. The steamer "Mary" came in from Mackinac Island, and left the adjoining wharf, at 9 o'clock for a trip to Petoskey, by the wonderfully novel and attractive Inland Route, through crooked rivers and beautiful lakes. Our baggage was transferred to this landing without expense, and we boarded the little steamer, which headed up the Cheboygan, picking her way through logs, which generally obstruct the river. An industry peculiar to northern Michigan was indicated by busy sawmills, and though piles of lumber obstructed our view, we caught glimpses of our winding course, in time to save a dawning conviction that the trip must end there. A sharp angle brought to view a lock, the rear gate of which was closed. On our entering, the water from the river, ten feet above, was gradually let in from the bottom, and our craft lifted to the upper level.

Three miles above this point, Black river empties into the Cheboygan, and is the outlet of Black lake, which is twelve miles from the junction of the two rivers, and covers an area of six by four miles. Rapids, within a few miles of the lake, make further navigation by steamer impossible. A panorama of beautiful landscape is opened as we proceed, and Mullet lake, with its placid waters, wooded shores and attractive spots for camping was reached before noon. The lake is six miles above Cheboygan, and is a beautiful body of water, twelve miles long, and from five to eight wide. It is full of fish, and its borders abound in game. Into it empty Pigeon, Indian and Sturgeon rivers. On the right, nearly across the lake, is Toppinabee. The Northern Hay Fever Association, Pike's Hotel, Railway station, telegraph office and stores are located here. Three miles farther on is the Mullet Lake House, where we stopped for dinner. This fine summer hotel, which is situated on a beautiful spot overlooking the lake, cost \$50,000, has seventy-five large, airy rooms, elegantly furnished, and is especially attractive for families, being a paradise for children. The house opens June 20.

Soon after dinner, we proceeded by a smaller steamer, the "Northern Belle," which though drawing but thirty inches of water, often gets very near the bottom. At the bend in the river one could easily jump ashore from bow or stern. This species of miniature navigation presents many little surprises to the tourist, which serve to while away the hours and fill the mind with pleasant recollections.

Soon after leaving the Mullet Lake house, we entered Indian river, which some poet has likened to a "silver thread on Nature's carpet." Seven miles of beautiful river scenery, and Indian river village is reached, five of these crooked miles, which cover all points of the compass, would make only three as the crow flies. Fishing and shooting parties in boats, were met, and towed by our accommodating captain to points farther on. After leaving this romantic little village, we had fallen into a quiet contemplation of our novel surroundings, when we were startled out of our reveries by a shrill whistle, seemingly coming but a few feet away from the bank of the river, and the next moment we were hardly less surprised to see the small steam yacht "Louie" suddenly shoot out from behind a bend just ahead. It seemed a saucy affair, both the whistle and the sudden appearance; the little craft as much as saying "Look out there! I claim the right of way here!" She contained a pleasure

part, and the engineer, some eight years of age, sat unconcernedly by the boiler, answering signals given by the captain at the wheel. It seemed at times impossible to navigate so crooked a stream, the steamer going at the bank as if it meant to jump it, but a clever turn of the wheel brought us out all right, causing little damage—to the shore.

A conspicuous sign on the bank indicated that the cluster of Indian huts, settler's cabins and tents of tourists was styled "Columbus Landing," and while gazing at it, the steamer shot into Burt's lake, unnoticed. An odd looking steam craft seen off at a distance, proved to be a floating saw-mill, which ties up to the farmer's docks, and saws their lumber almost at their doors. At the small wharves along the shore, the steamer, if signalled, will stop. In case there is no landing, passengers frequently come out in small boats. Burt's lake is ten miles long and five wide. It is fed by Crooked, Maple and Sturgeon rivers, all large streams. Maple river is also the outlet of Douglass lake, which lies two miles north. Once across this lake we suddenly swung in apparently for the shore, but no, it proved to be for the mouth of a river, narrower and more crooked than we had yet seen. The passage of Crooked river, seven miles long, was the most highly interesting and novel portion of the trip. We wondered how the steamer would be able even to enter, as floating logs filled all the space, the very mouth being closed by a boom to keep them in. A rope was hitched to the stake, which the steamer pulled out, letting the boom go, and we went at the jam of logs at full speed, jumping some, pushing others with pike poles, and so making our way in amongst them. The river drivers, with red pantaloons and spiked boots, skipped around on the logs with a careless indifference to their uncertain footing, that would have sent a novice into the water at short notice. With their pike poles they rendered efficient aid, and after much pushing, pulling and butting, we finally got clear. Once more well into the river, our attention was absorbed with the navigating of the little steamer. Owing to the narrow, winding course, at times it seemed impossible to go farther, but by making very short turns and winding around abrupt angles, we threaded the labyrinth, being able, quite often, to pick evergreens from the shore on either side. Bump she would go into the bank, her stern swinging in, and off again for the opposite bank, and so on for miles. A short distance beyond the jam of logs, a lighter, containing kitchen and bunks, was being floated along, to be within easy reach for meals and shelter for the men on the drive just passed. Farther on was the tail end of the drive, a single man gathering stray logs into a raft, his boat tied astern. It was all very interesting, the scenery beautiful and the whole affair novel in the extreme. We shortly entered Crooked lake, which is five miles long, and famous for bass fishing, and numerous delightful locations for camping along its shores. In a few moments we were landed in the woods at Odin, at the head of the lake, and we bade good bye to the little steamer and its good natured captain with regret.

The Dummy, another novelty, was waiting at the station to take us the last eight miles of our journey, over the G. R. & I. R. R. track, to Petoskey. Its open cars afforded a splendid view en route, of the Bay View, Harbor Springs and Point resorts for cottagers. As we looked across the beautiful bay, the whole scene reminded us of an amphitheatre on a grand scale. Our train stopped at the Arlington hotel in time for supper, and a stroll about the young but famous town, before the departure of the train for Mackinac City, 33 miles away. We then took the ferry steamer "Algoma" for Mackinac Island, 7 miles distant. Some of our fellow passengers stopped at Mackinaw City over night, at the Wentworth house, which is over the railroad station, and went over to the Island in the morning.

While this is only Monday night, we have seen so much, and every moment has been so thoroughly full of enjoyment, it seems a week since we left our busy cares behind. A stay on Mackinac Island until Wednesday morning affords an opportunity of seeing the wonders of the place, so wisely reserved by the government as a national park, about which so much has been written, and to which so many pilgrimages are annually made, increasing steadily each year, as returning tourists tell of the sights seen, and the invigorating influences of the delightful trip.

On this trip, however, our time being short, we hunted up the "charioteer" before rearing, and engaged a seat in the chariot for a morning ride over the "Star Route," which comprises the most wonderful of the many wonders to be found. Fifty cents was the charge for this ride of about 7 miles. Another trip is made in the afternoon, or one can take a carriage and go farther. A walk over the by-paths will also be interesting. Here, invalids,

The common sense plan of making separate charges for Meals and Berths.

who would hardly think of doing so at home, walk long distances in the bracing air without fatigue. One of the ferry steamers generally makes the trip to Hundred Islands (Le Che-neaux) for the day. This disposed of Tuesday, and the following morning, after breakfast, one of the day steamers called, on her way from Cheboygan, and we jumped aboard for a trip up the beautiful Soo river (Sault St Marie). Skirting the rocky cliffs of the Isle, we passed down the west shore of Lake Huron. At noon a landing was made at Detour, just at the entrance to the land locked waters of the Soo, whose repeated changes from a narrow entrance to a broad lake then to a narrow, rapid river, and again to lakes, rivers and rapids, and its crooked courses around islands, which the currents have thus far failed to wash away, form a varied and charming experience scarcely ever surpassed. The passage of the Soo river must be made by daylight, and vessels are timed accordingly. Should they arrive at night, they anchor until the early dawn. The steamers of this line are the only ones that make the passage by mid-day. The channels are narrow, shallow and crooked. Boulders and shoals hidden just out of sight, lie all about, and sailors keep a sharp look-out here. The Sault St Marie river connects lakes Superior and Huron, is sixty-two miles in length, and forms the boundary between the United States and Canada. Its mouth is a mile wide. Drummond's Island lies on the east, the main shore of Michigan on the west of the entrance. Pipe Island is four miles, St Joseph's Island, Canada, with its old fort, eight miles, Lime Island ten miles, and Round Island eleven miles from the entrance. Potagannissing Bay, dotted with numerous small islands lying to the eastward, communicates with the north channel. Mud lake, six miles farther on, is four miles in width. Sailor's Encampment Island is twenty miles from Lake Huron, and is a famous camping place. There is excellent fishing and shooting and supplies, small boats and small steam craft can be readily obtained. Here are found families, parties and fishing and shooting clubs, who for a short period seek relief from the strain of business, social and domestic cares, and the stifling atmosphere of closely packed cities. With a simple outfit consisting of wall tent, rubber and woolen blankets, a few tin dishes, and a compliment of cast-off clothing, they leave their homes, offices and school-rooms, and come out to this delightful region, assume the free habits of the natives, eat, sleep and are merry as seldom before, gain health and strength from the first breath of the pure, dry air of this wonderful Mackinac region, and return to their various callings with renewed vigor and a new lease of life. Hay fever sufferers, who are wise, come before the appearance of the annual attack, and wholly escape the malady, while even the tardy ones find their sufferings at once mitigated.

Continuing our course, the steamer seems to be heading straight for the shore, until a narrow outlet comes suddenly into view, and we enter the Nebish Rapids, passing between Sailor's Encampment and St. Joseph's Islands. From this on is to be seen the most varied and charming scenery. Indian villages, settlements and beautiful farms, serve to make a most interesting panorama. Lake George, six miles farther on, is an expansion of the river, nine miles long and four wide. It has thirteen feet of water over the shoals, and terminates at Church's Landing. Squirrel Island, Canada, lies opposite Garden River Settlement, three miles distant, is an Indian town in Canada. Little Lake George comes next, then Point Aux Pines. Three miles farther, we pass around the head of Sugar Island, and eight miles beyond reach Sault St. Marie, fifty-five miles from Lake Huron at six o'clock in the evening, having supper on the steamer. Sault St. Marie is fifteen miles from Lake Superior, and there is much that is interesting about the odd old place. Here is situated the famous ship canal, built by the State of Michigan for the purpose of passing the rapids. The U. S. Government enlarged this canal, and constructed a new ship lock 615 feet long and 80 feet wide, having a lift of 18 feet. The scene witnessed on passing through the canal locks, is most interesting and exciting. The ship canal, river, island, and the two villages are in sight on either side of the stream. The Indians in their birch canoes are engaged in taking white fish below the rapids.

And ne'er till lost is mem'ry's power,
Shall we forget the thrilling hou,
Of our swift passage down the "Soo,"
In "Indian John's" light birch canoe

Fort Brady, erected in 1823, is an old and important U. S. military post. Contiguous to this Indian village, it commands the St. Mary's river and the ship canal.

From "Picturesque Mackinac," Published and Sold by the Author.

In the vicinity of Sault St. Marie are several streams where sportsmen go in search of speckled trout. The nearest points are the rapids on both sides of St. Mary's river, and the small streams between the islands on the Canadian side. There are also several places from one to five miles above and below the falls where anglers resort. Indians, or half-breeds, with canoes, have to be employed as guides. Our evening was fully occupied in inspecting the government works, which well repay a visit. The immense and perfect structure of masonry, the water power made to run all the machinery necessary to operate the monster gates of the lock, and the dynamos which furnish the electric lighting were perfect in all details, and quite in keeping with these was the neat, tidy appearance of all the surroundings. The ingenuity of man is conspicuous in the easy manner with which this ponderous affair is manipulated. All the shipping from the lower lakes passes through this canal. We witnessed the locking of the most considerable amount of tonnage which had ever passed through the canal at one time. It consisted of two of the largest steam barges, with two immense consorts.

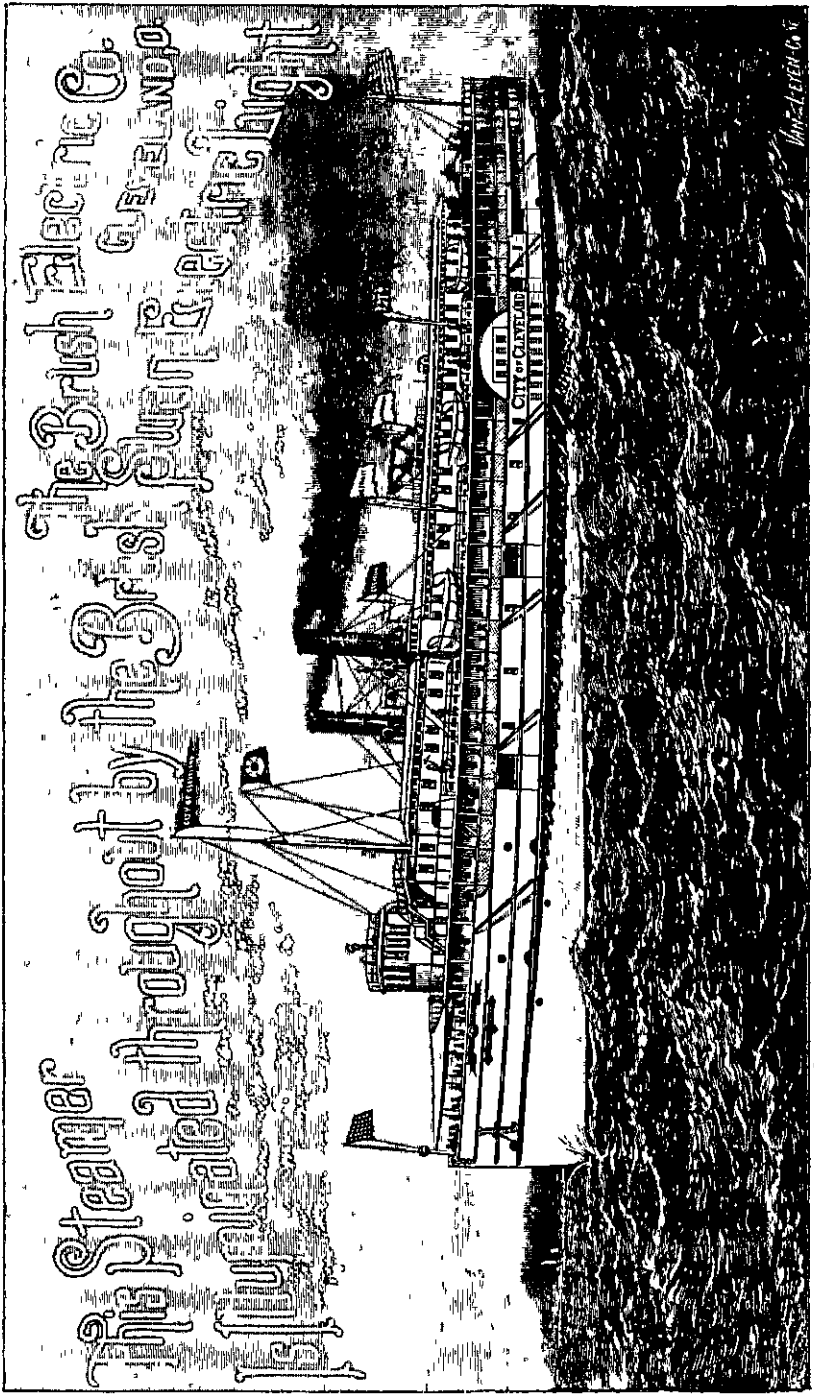

Tourists for Lake Superior take the steamers of the Lake Superior Transit Co. for south shore ports, or the Canadian lines for north shore ports. The advantages of taking the Detroit and Cleveland Steam Navigation Company's route to the Soo and Lake Superior are it takes the west shore of Lake Huron, the passage of the rivers by mid-day, and includes the attractions of Petoskey and Mackinac Island at the least expenditure of time and money. Leaving Cleveland Tuesday or Thursday evening, and rising at four, the first morning only, all the interesting features are seen by daylight.

Thursday morning, at 6 o'clock, we commenced our return trip, arriving at Mackinac at 16 o'clock, and in two hours our favorite City of Mackinac came in from the south again. We went on board for supper, while the steamer crossed to St. Ignace and back, and bidding the island a final adieu at 20.30 o'clock, arrived at Detroit Saturday morning at 11.10 o'clock. As we had until 22 o'clock that evening before the steamer left for Cleveland, where she would arrive early the following morning, we enjoyed the pleasure of showing the beauties of our own city to our fellow passengers from the southern terminus of the route.

An Enchanted Spot—Says the well-known writer, Miss Alice E. Ives, in the Detroit Post, Aug. 11, 1884, "I never had much faith in the attractions of Mackinac. I supposed that people went there because it was the correct and fashionable thing to do, or because the guide books had deluded the public with highly colored descriptions, and that there was considerably more talk than cider about the whole thing. Consequently when I took the City of Mackinac for the round trip it was with the settled conviction not to remain more than a few hours. I was deaf to all entreaties to stay. I pleaded work which could not wait and a wardrobe which was all contained in a shawl strap. * * * 'It will well repay you,' urged a friend who had seen nearly all this country, and part of Europe, and I began to weaken. * * *

When the steamer ran up to the wharf and the familiar faces of many Detroiters nodded a pleasant welcome from below, I was far enough in the toils to feebly acquiesce in the proposal to see what could be done about accommodations. * * * The charm of the place had begun to tell upon me. * * * We climbed to the top of the bluff, entered the citadel, and looked over the parapet on one of the grandest views of the world. The great blue lake seemed to lap the yellow sands with a soft caress, and to fold upon its bosom the far away purple shores drowsing in the still air of the dying day. * * * It needed no Calypso to make the thralldom perfect. * * * I determined when I did go back it should be on the City of Mackinac. It was so clean, so pretty, so sweet even to daintiness, and so strong and staunch, the officers were so gentlemanly, and the discipline and attendance so perfect, I couldn't think of stepping foot on any other steamer. This meant a longer stay, but I didn't seem to mind that now, and when our friend embarked for the down trip, I regarded him with a sort of pity, as one who had turned his back upon paradise. * * * Quaint old legends haunt every wooded knoll, cave, bluff and romantic walk. The opportunities for strolling and exploring are legion, and when tired there is always the luring charm of the pebbly beach, and the great expanse of blue waters. The old settlers are fruitful subjects for study. * * * As we once more stood on the deck of the beautiful steamer City of Mackinac, a lady said: 'It seems as if we were only sailing away for a little while and that we must surely come back to it again, as if we could never quite leave the enchanted island. Verily Mackinac is an enchanted island, and unlike the land of the lotus eaters, where it was always afternoon, it seems with its fresh, clear, invigorating air to be always morning.'

The Beauties of our own Country rival those of the Old World.

The Detroit and Cleveland Steam Navigation Company's New Steel Steamer, City of Cleveland

The Akron Transfer Co. Furnish the Best Coaches for WEDDINGS and FUNERALS

The Akron Seed Store,

Founded in the Spring of 1873, by O. S. WARNER, and still under the same proprietorship, furnishes the only reliable supply in the city of

GARDEN FLOWER AND FARM SEEDS.

It also Supplies a Choice Selection of Superior
BEDDING PLANTS AND FLOWERS

*And Bulbs for Spring and Fall Planting from the best growers
in this Country and Europe The growing and selling of*

VEGETABLE PLANTS

Is also a leading speciality with us. During the past eight years we have furnished hundreds of thousands of the best grown Plants of Early and Late Cabbage, and Cauliflower, Tomato, Pepper, Ruta Baga, Endive Beet and Celery Plants.

In growing and purchasing our Stock we have always made quality the paramount consideration, often paying four or five times as much a pound for Cabbage Seeds as we could purchase a fair quality for, holding that such maxims as "The best is the Cheapest," and "Cheap is always dear," are especially true as to Seeds.

We have endeavored to promote the interest of our customers by furnishing them Seeds of superior quality, unmixed, and true to name, and giving them reliable information as to methods of planting and culture. We have had our reward in a yearly increasing business, and the formation of many friendships based upon liberal patronage and faithful service.

We handle a few Specialties selected as best in the light of Careful Experiment and Trial

Garden Implements and Requisites. Matthews' Seed Drills, beyond comparison the best, Hazeltines & Lang's Hand Weeder, Humphrey's Potato Knife, Vine Valley Pruning Shears, &c

Slug Shot The universal insecticide, cheap and efficient, harmless to the tenderest plants or shrubs, death to nearly all insects, harmless to other forms of animal life. Admirably adapted to keep poultry and all live stock free from vermin.

Imperial Egg Food We shall keep a stock of this most effective aid to egg production.

Ground Oyster Shells We have in stock and shall continue to handle the best Ground Oyster Shell.

Bird Seeds in Bulk. Much of the Bird Seed put up in packages is inferior in quality, musty and in bad condition. We carry a stock of the freshest and cleanest Sicily Canary, German Rape, Hemp, German Millet and other requisites for Cage Birds.

Entire Wheat Flour. We have sole agency for this Flour. It is not a Graham Flour, with the woody and flinty outer coats removed. The continued use of Graham Flour, or Wheat Meal, often develops aggravated cases of Piles, while the Entire Wheat Flour is a perfect food preparation for the most delicate and for infants, while it is furnished at about one-tenth the cost of the so-called Infant's or Invalid Foods. After a years use of it in my own family, I believe it to be the most perfect preparation of the best Food Grain in the world.

We shall also handle the Health Food Co's preparations of Grains and Fruits

Send your name and address if you would like to receive our 1887 Seed Catalogue, and other announcements. Respectfully,

Akron, O., July 25, 1886.

O. S. WARNER.

The + Akron + Business + College

Enters this autumn of 1886 on its twenty first year It has been for nearly fourteen years under its present proprietorship The subjects it teaches are much the same as those taught in other Business Colleges,

Book-keeping, Penmanship,

Phonography, Commercial Law,

Commercial Calculations, and

the Branches of a Common School Education

The special claim the A B C has upon the business and industrial community and upon all who wish a really practical education, is that its proprietor, who devotes himself not merely to the general management of the school, but the instruction of every student, is an experienced teacher, who has learned by twenty-four years practice, how to present facts and principles so that a pupil can readily apprehend them He has also had a large experience in business affairs, extending over a period of twenty-one years, from 1865 to the present During the summers of the past eight years, he has built up a prosperous business in the seed trade, being original founder and present proprietor of the **Akron Seed Store**, over whose counters many customers from four adjoining counties, as well as thousands in Akron and Summit County, get their yearly supply of seeds and plants with an increasing mail-order business

To some visionary young people who have not learned that the merits of a school, as of a physician, are generally in inverse ratio to the extravagance of its claims, all this business and professional experience will go for nothing, and they will be attracted by the specious claims of some ignorant educational charlatan, who has some new and improved scheme for imparting knowledge without effort upon the part of the pupil but the experienced man of business, and intelligent and sensible young people will patronize an institution, whose twenty years of continuous existence demonstrates its value to the community, the success of whose former students demonstrates its efficiency, and whose present proprietor and principal teacher has had large experience in teaching and business affairs

"A WORD TO THE WISE IS SUFFICIENT."

For particulars, call on or address,

O. S. WARNER, M. A.,

JULY 25, 1886

Academy of Music Building, - - - AKRON, OHIO.

W. H. ROWLEN,

—GENERAL AGENT—

Union Central Life Insurance Co., OF CINCINNATI, O.

Extract from State Insurance Commissioners Report, 1886

'In December, 1885, I made the annual examination of this company, as required under section 272 Revised Statutes. I found the Company's affairs in excellent condition. The officers are careful and honest and merit great praise for their wise and prudent management. The success of this Company the past year has been unprecedented. As evidence of this success they have added in new business over \$7,000,000.00 during the year. *Ohio's only Life Company justly takes Rank with the best.*"

Ohio never had a life company fail, or in the hands of a receiver and no policy-holder in one of its own companies ever LOST A DOLLAR of his insurance.

POINTS OF EXCELLENCE:

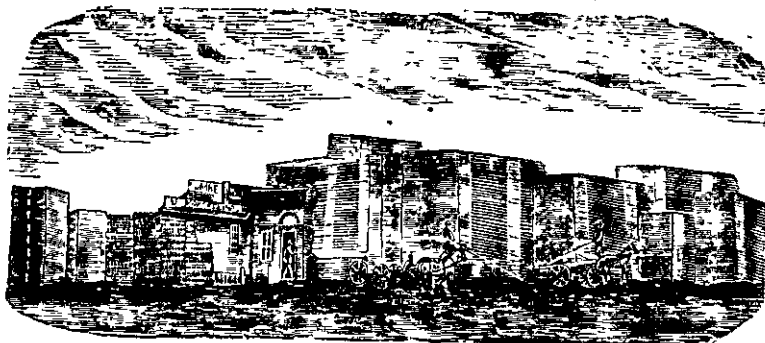

- Prompt Payment of Losses.
- Incontestable and Non-Forfeitable Policies.
- Lowest Mortality Rate.
- Highest Interest Rate.
- Safest Investment of Assets.
- Endowment Policies at Life Rates.

The Interest Receipts more than paid all Death Losses and general office expenses in 1885

GOOD SOLICITORS WANTED.
MONEY TO LOAN ON FARMS.

S. N. WILSON, CONTRACTOR, BUILDER,

—AND DEALER IN—

LUMBER,

Manufactured and in the Rough,

Sash, Doors and Blinds, Glazed Work, Windows, Door Frames, Etc.

The only Agent in the city for the celebrated **Gutta Percha Paint**, prepared for the brush in all colors. The Gutta Percha Paint makes the paint waterproof, warranted not to crack, peel or fade. The fact that all submarine cables are coated with Gutta Percha is evidence of its being waterproof and durable.

Yard and Office, No 170 S Main St., near Mill, opp Hotel Buchtel, AKRON, OHIO

N H BURCH & CO'S

N H. BURCH & CO.'S

→ Guyahoga Falls Business Directory. ←

→ 1886-7. ←

The most picturesquely located spot in Summit County, possessing more natural advantages for the manufacturer, and more points of interest for the tourist and pleasure seeker, than any other point in the State, is located on the C A & C and P & W R R's, $4\frac{1}{2}$ miles from Akron, and 12 from Hudson. It is quite an important station of both roads, and is easily accessible from all points, through connections made with other roads. It is the second place in size and population in the county, numbering at the present time about 3,500 inhabitants. There are here quite a number of

Pleasure Resorts

much frequented by tourists, and particularly by picnic parties, the principal of which are High Bridge Glens and Caves with beautiful shady grounds and fine large pavilions, opposite which the C A & C R'y have a handsome waiting room and platform. Gaylord's Grove, for many years a favorite resort for pleasure seekers, with swings, croquet and base ball grounds, boating, &c Big Falls and Old Mad's Kitchen the latter a large cavern discovered in 1826, and still an object of great interest to tourists and small picnic parties, Silver Lake, or Stow Pond, is also much resorted to by pleasure parties many of whom come here to camp during the summer season. Two small steamers, with

Coaches to any part of the City, Akron Transfer Co.
NIGHT OR DAY.

busses and carriages, convey excursionists to and from the different resorts. The Cuyahoga River, from which the village takes its name, furnishes almost unlimited power for manufacturing purposes, which is here fully taken advantage of. The following are the principal

Manufacturers.

The extensive Sewer Pipe Works of Geo P Speiry, the Rivet Works of the Falls Rivet Co, the Wire Mills of Reeve & Chester and The Glen Wire Mfg Co, the Cuyahoga Iron and Staybolt Co, the Eureka Buck Co, the American Foundry and Machine Co, the Hollow Brick Works of H B Camp, the Pearl Flouring Mills of Losey & Clark, the Cuyahoga Paper Co, the Tannery of C Kittelberger, the Sterling Chain and Mfg Co, the Stoneware Factory of Thomas Brothers, the Variety Iron Works of Turner, Vaughn & Taylor, the Marble Works of Weimer Bros, and the Carriage Factories of Wm Blong, John Clayton, and Vogan & Tyson

Churches and Schools.

The churches are four in number, viz

First Congregational—Rev E V H Danner, pastor

Methodist Episcopal—Rev E J Smith, pastor
