POWER TRANSMISSION APPLIANCES, for Belt or Rope Distribution. HYDRAULIC PRESSES AND SPECIAL MACHINERY

Made with 4 or 6 Arms

Falls Friction Clutch Pulleys and Couplings, consist of a combination of mechanical movements, which are the acme of simplicity and strength. All parts standardized, accessible, easily erected and adjusted, made solid or split.

Power may be distributed with rope by two distinct methods; the English or Multiple System, and the American, or Continuous System. The English System is usually used in main drives of larger powers, while the American, or continuous wrap system, operates successfully from small to large loads and on long or short centers, horizontally, vertically, parallel, or at any angle to each other. On the latter system, the use of Tension Carriages is essential to keep a uniform tension at all times on the rope.

HYDRAULIC PRESSES

SHEAVES

CAST-IRON PULLEYS, either Solid or Split, Single or Double Arm.

Hammered Forgings for Shafting purposes.

Complete line of Bearings, made dust-proof, self-oiling, ring-oiling or for grease lubrication.

Base Plates, Head Shaft Hangers and Floor Stands, suitable for any condition.

AKRON 1916

With the year 1916 Akron enters upon a new period of growth. The extension of the corporate limits to double their former size brings the area of the city to a point commensurate with its industrial and commercial magnitude, and by removing one of the most serious obstacles which hindered its free growth, has already greatly stimulated many lines of activity. The area of greater Akron is 23.21 square miles.

Akron's industrial greatness is embraced in its 164 manufacturing plants having a combined capital of \$175,000,000, which in 1915 turned out manufactured goods valued at \$156,000,000. These factories employ 48,000 persons, and pay employes each month in wages and salaries the sum of \$2,500,000.

The combined clearings of Akron's 8 banks in 1915 amounted to \$109,252,000. The fact that the clearings for the first 5 months of 1916 totaled \$73,482,000 is an evidence of our increasing prosperity. Akron postoffice receipts in 1915 totaled \$610,249, an increase of 25 per cent over the year before. Permits for buildings valued at \$6,130,950 were issued in 1915, a gain of 50 per cent over the year 1914. In building, the year 1916 has been of unprecedented activity, and permits for the first 5 months aggregate \$3,511,116 in value.

Every Akron citizen should be familiar with the following facts:

Akron is the largest rubber manufacturing center in the world; 24 companies have a daily capacity of 40,000 tires, besides immense quantities of rubber hose, clothing, foot-wear and other rubber goods.

Akron has the largest cereal mills in the country.

Akron has the most extensive clay product plants in the world.

Akron has the largest fishing tackle factory in this country.

Akron's percentage of homes owned by their occupants is 50.4%.

The average for all the cities in the United States is 38.4%.

Note.—We are indebted to Mr. Vincent S. Stevens, secretary Akron Chamber of Commerce for the above facts and figures.

In the matter of population, we have made a careful count of all individual names in the Akron Alphabetical list and find a total of 72,060, this multiplied by one and three-fourths ($1\frac{3}{4}$) (to cover the names of married women and children under 15 years of age) shows a present population of 126,105, an increase of 10,553 over a similar estimate made a year ago.

Respectfully,

THE BURCH DIRECTORY CO.

Firestone Service

The motoring public—all over the world—recognize Firestone as the standard of service—Most Miles per Dollar—and most comfort per mile. To live up to this international fame the service in the “home town” of Akron is made limitless in scope and efficiency. Everything in size or style of tires, tubes, rims and accessories for autoists and cyclists.

Wherever you are, send for the Firestone man.

Mohawk "Quality" Tires

It is not the size of the tire factory or the size of the advertising campaign that adds mileage to the service of the tires on your car. The only thing that will increase your tire mileage is "quality."

The Mohawk factory is not famous for its size, quantity production or advertising. It is known primarily for its high standard of materials and workmanship.

The Mohawk Rubber factory is a busy little shop employing the pick of skilled workmen and selecting with the utmost care the materials used in the construction of Mohawk "quality" Tires.

The factory manager is Sam S. Miller, widely known in rubber and allied industries. Mr. Miller celebrates in the fall of 1916 the completion of his twentieth year in tire building.

Satisfaction

The satisfaction of knowing that you have bought your tire mileage at the lowest market price is only equaled by the feeling of confidence and protection—from trouble—that goes with “Marathon Tires.”

Their small price-difference over popular-priced tires is repaid many times over in actual service and satisfaction.

Made in all types and sizes, in either the Regular Fabric Body or the Elastic Whip-Cord. Both styles are definitely guaranteed 5,000 miles. The Regular Fabric tire is equipped with a Snow-White Tread, and the Elastic Whip-Cord with the aristocratic Black Tread. Marathon Extra-Heavy Red Tubes and Accessories are carried by all Marathon Dealers.

COPYRIGHT LAW

Section 28 In Force July 1st, 1909

That any person who willfully and for profit shall infringe any copyright secured by this Act, or who shall knowingly and willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by imprisonment for not exceeding one year, or by a fine of not less than one hundred dollars, nor more than one thousand dollars, or both in the discretion of the court.

Real Estate and Insurance

You have watched Akron property grow. Now jump in and get some of it, if only a vacant lot. You will never regret it. Get it somehow, don't wait.

Don't forget to take out some Life Insurance. The younger you are the cheaper it comes. Then when you get along in life you will have something to help you along.

POSTAGE RATES

Domestic Matter—First-class, letters and all written or sealed matter two cents per ounce or fraction thereof. Second class, entered newspapers and magazines, one cent for four ounces or fraction thereof. Third-class, books, photographs and printed matter generally, one cent for each two ounces or fraction thereof. Fourth-class, merchandise, bill heads, cut flowers, flour sacks, printed or unprinted, etc., one cent for each ounce or fraction thereof. Parcel Post includes Books and Merchandise with rates according to zone.

Registry Fee—Ten (10) cents.

To insure proper rating of doubtful mail matter, it should be brought to the Postoffice.

Foreign Rates—Postal Union Countries only. Letters and all sealed matter, five cents for first ounce or fraction thereof and three cents for each additional ounce (except in England, Ireland, Scotland and Wales, and Germany [if by boat direct] where the rate is two cents same as domestic). Newspapers, periodicals and photographs, unsealed, one cent for each two ounces or fraction thereof.

Advise your correspondents of your street address, and request that they so direct your mail. This insures prompt delivery and prevents mistakes.

By placing your name and address on the upper left-hand corner of the envelope you will receive the letter back if it is not delivered.

Postoffice open for dispatch of mail day and night.

Main Office East Market cor. High St.

A. ROSS READ, Postmaster.

Good Printing

It's Always Worth
More than it Costs

Contentment

Let us learn to be contented with what we have. Let us get rid of prejudices and false estimates, set up the higher ideals---a quiet home; vines of our own planting; a few books full of the inspiration of a genius; a few friends worthy of being loved and able to love us in turn; a hundred innocent pleasures that bring no pain or sorrow; devotion to the right that will never swerve; a simple religion empty of all bigotry, full of trust and hope and love---and to such a philosophy this world will give up all the joy it has.

BESSLER MOVABLE STAIRWAY CO The, F E Bessler pres, A J Dellenberger sec and treas, 716 Second Natl Bldg

**"To make 2 blades of grass grow where
1 grew before"**

That is (figuratively) the mission of

The Bessler Movable Stairway

A case in point is the sectional view of the bungalow shown in the adjoining photograph.

The attic was about to be abandoned because a stationary stairway would have taken too much space out of the bedroom below.

The Bessler Movable Stairway was installed—now there are two rooms where practically there would have been but one.

The Bessler Movable Stairway Co.

No question about it. The public at large look upon the man who advertises as an enterprising man. If he were not, he would not advertise. City Directory advertising pays big dividends.
