AKRON, OHIO

"THE RUBBER CAPITAL OF THE WORLD"

Akron, a northern Ohio city of 298,500 persons, has gained fame through the years for outstanding leadership and contributions in many varied fields.

The city is probably best known as the "rubber capital of the world." It is the hub of the globe-girdling rubber companies whose vast networks of fabrication plants and retail outlets play such an important role in our economy. This vital Akron-born industry alone represents more than four billion dollars annually in production.

GIANT TIRE MACHINERY

Rubber has been the big employer in Akron for nearly half a century. The city is the headquarters for administration, sales, financing, distribution and research for B. F. Goodrich Co., Goodyear Tire & Rubber Co., Firestone Tire & Rubber Co., General Tire & Rubber Co., and Mohawk Rubber Co. Seiberling Rubber Co. is located at nearby Barberton. In addition there are a number of smaller specialty rubber companies in Akron.

AIRDOCK AND PORTION OF GOODYEAR AIRCRAFT CORPORATION

Goodyear Aerospace Corporation's impressive Airdock, completed in 1929, was erected to house the rigid airships, USS Macon and USS Akron, each of which was 785 feet long and had a gas capacity of 6,500,000 cubic feet

The Dock is approximately a semi-paraboloid shape, well described as a half of a silkworm's cocoon, cut in two the long way. It is 1175 feet long, 325 feet wide and 211 feet high. Its 364,000 square feet of floor area makes it the largest single uninterrupted space yet built.

In a comparative sense, the Dock's height is equal to a 22 story building, it is the largest structure in the world without interior support, ten football games could be played simultaneously under its roof. It is so big, in fact, that the engines on the airships can be "run up" inside the structure without discomfort to workmen or danger of carbon monoxide poisoning.

In effectively launching and docking huge rigid airships, the Dock had to be designed to reduce air-current interference to a minimum. It was with this thought in mind that Dr. Karl Amstein, GAC's retired Vice President in Charge of Engineering, specified the building as a semi-paraboloid structure.

The most unique feature of the Dock is probably its identical spherical doors with their supporting trucks and operating mechanism, with individual power plants separately housed at each end of the building. The doors are two-piece and shaped somewhat like one-quarter of an orange peel. Each of the four sections weighs 600 tons. The doors are fastened at the top by huge hollow-forged pins 17 inches in diameter and six feet long. The doors rest on 40 wheels set radially on curved standard railroad track. Time of opening or closing is approximately five minutes.

DIVERSIFIED INDUSTRY

Akron is also well known as the birthplace of the trucking industry. The enterprising rubber producers, sensing an important new market for their tires, were among the first industries to ship by truck. Today Akron is headquarters for 99 motor freight companies and 42 contract carriers with more than 15,000 trucks and trailers.

Also located here are two of the largest concerns in their respective fields - the Saalfield Publishing Co., publisher of children's books, and the Pflueger Corp., makers of world-famous Pflueger fishing tackle.

Metal working is another important industry. The units of this industry range from small tool and die shops to big factories producing machinery used in the rubber industry and other similar types of business.

Many new industries - such as the Chrysler Corporation Stamping Plant and the Euclid Division of General Motors Corporation - have been attracted to the Metropolitan Area because of the availability of excellent plant sites, exceptional water supply, accessible raw materials, a large pool of technicians, skilled and semi-skilled workers, rail, air, water and motor freight transportation and abundant electric power at low rates.

The diversified list of other products made in Akron area plants includes chemicals and plastics, salt, clay products, paint and varnish, paper and boxboard, porcelain products such as glove forms and insulators, aircraft parts, heating and air-conditioning equipment, storm windows and doors, mattresses and upholstered furniture, concrete blocks, electric motors, wire drawing machinery, marine equipment, molds for rubber and plastic manufacturers, rubber toys, fabricated and wrought iron steel products, tools, both hand and power, and wood turnings.

Akron has gained world wide fame as the host city for the All-American Soap Box Derby and such famous golf events as the 1960 PGA Tournament, the American Golf Classic and the World Series of Golf. Further honor will come in 1967 when the PGA tourney will again be held here

FINISH LINE AT AKRON'S ALL-AMERICAN SOAP BOX DERBY

Since 1934, with the exception of four war years, the ALL-AMERICAN SOAP BOX DERBY has carved a significant place for itself as a vital youth event in America. Each year, Akron, Ohio, the home of the ALL-AMERICAN, rolls out the royal welcome mat for 239 local champions from all over the United States and many foreign countries for this "greatest amateur racing event in the world."

The entire business district is lavishly decorated in Derby colors and banners, and Main Street becomes ALL-AMERICAN BOULEVARD for the festivities during "Derby Week." To make certain each "Champ" is identified to the tens of thousands of visitors that pour into Akron, giant placards along the Boulevard feature the name of each boy and the city or country he represents

The Akron Area Chamber of Commerce, its committee, merchants and the entire community join together to make every Derby Boy feel that he is a true champion, for each entrant in the ALL-AMERICAN has earned the honor of competing for national recognition and over \$30,000 in scholarships and other prizes by winning the grand championship in his local derby "back home."

The 239 Champs competing at Akron actually are representing some 75,000 boys who experienced the thrill of creating a racer with their own skill and ingenuity and entering in competition with other fine boys like themselves

AKRON UNIVERSITY STUDENT CENTER

As a municipal institution serving a world famed industrial area, the University of Akron strives to provide an excellent academic education for the college-age youth of the community. In addition, the University provides facilities for adult education and many civic, cultural and educational community events.

Buchtel College, named for its most generous financial supporter, John R. Buchtel, became the core of the University of Akron in 1913 when all assets of the college were accepted by the City as a foundation upon which the new University would grow.

Today, students can earn bachelors' degrees in the Colleges of Liberal Arts, Engineering, Education, Business Administration and Law.

Masters' degrees are offered in all the colleges, through the Graduate Division. The Doctor of Philosophy degree is offered in Chemistry by the Buchtel College of Liberal Arts.

AKRON YMCA

The Akron Young Men's Christian Association serves 34,468 members, of whom 24,827 are under age 18, in 11 branches in the Metropolitan Akron Area. Programs feature gym and swim classes, boys' clubs, hobbies and crafts, citizenship training, informal education, teen-age parties and special family activities. Attendance at these various activities annually exceeds 1,800,000.

Service For All

Rated by a national news magazine as "one of 24 nice places to live in the United States," Cuyahoga Falls has traditionally been a city of home owners. With an estimated population of 53,000, there are approximately 15,000 homes of which 82 per cent are owner or buyer occupied.

While most of the residents work in either Akron or nearby Cleveland, the city has much to offer in industrial facilities with over seventy-five plants producing rubber, food and dairy products, furniture, wood products, plastics, machine tools, wire drawing machinery, ecetra. The Falls also has outstanding cultural and recreational facilities for its residents.

The Cuyahoga Falls Chamber of Commerce, an affiliate of the Akron Area Chamber of Commerce, plays an important role in coordinating many of the city's activities.

CUYAHOGA FALLS CITY BUILDING

CUYAHOGA FALLS CHAMBER OF COMMERCE

AN AFFILIATE OF

THE AKRON AREA CHAMBER OF COMMERCE

DELAWARE BUILDING

253-9181

137 South Main Street
AKRON, OHIO

Cuyahoga Falls covers an area of 8 695 square miles at an altitude of 1,109 feet above sea level. Included in the city area are more than 100 acres of parks and playgrounds.

Founded in 1812, the city more than doubled its population between 1910 and 1920 and again between 1920 and 1930. It has more than 141 miles of streets of which more than 103 are paved, 118 miles of sanitary sewers, 134 miles of water mains and 65 miles of storm sewers.

Cuyahoga Falls offers the consumer public more than 300 retail stores, including chain department stores and independently owned, plus professional men for all types of services.

The Cuyahoga Falls Municipal Swimming Pool at Waterworks Park is annually the scene of swimming meets recognized by the National A A U (Amateur Athletic Union). The pool has a capacity of more than one million gallons of water, is 75 feet wide and 325 feet long.

CUYAHOGA FALLS FIRE DEPARTMENT

Cuyahoga Falls has one of the most modern, completely equipped fire departments of any city of comparable size in the State of Ohio.

Because of the department's fine fire prevention program, the City enjoys an excellent fire safety record. Only three major fires have occurred in the past 30 years.

RESIDENTIAL SECTION OF CUYAHOGA FALLS

The City of Cuyahoga Falls is blessed with an immense natural beauty and the people have capitalized on this beauty as part of the charm of both the modest and more elaborate homes. Interesting variety in style is seen as you drive throughout the community. The architectural types range from colonial to modern homes of steel and glass.

HOW MANY CHANGES IN A YEAR?

Out of every **100** People as listed in the last Directory

16% to **18%** Move away or die

17% to **19%** "New" people move into town or reach listing age.

26% to **29%** More change their addresses or their jobs or some other vital fact that affects their listing.

(All that's left that's good)

Making a total of **59%** to **66%** of the People listed who have new information in some particular which can be surely found only in the **NEW DIRECTORY**

Note: These figures are from repeated checks in numerous cities and do not vary 5% in any one year.

THAT IS WHY NEW DIRECTORIES MUST BE PUBLISHED EVERY YEAR.

SPECIAL

CLASSIFIED

ADVERTISING DEPARTMENT

AND

BUYERS' GUIDE

OF THE

AKRON CITY DIRECTORY

1964-65

This section of the Directory contains the Advertisements and Professional cards of the more progressive business men, classified according to their respective line of business or profession. In brief, they are the men who are making business and history for Akron. Patronize them and you will be sure of a square deal.

We have on file in our Directory Library every issue of the Akron City Directory, beginning with the 1868 edition, down to the current issue. These volumes contain a wealth of information concerning the people who were listed in the Directory during the past 82 years.

Persons listed in the earlier Directories are now only memories, but their listings in the Directory remain the same as when they were here in person.

These rare volumes, as well as hundreds of current Directories of other cities, are available for public reference, without cost,—just a part of our service.

KNIGHT-WARE

KNIGHT-WARE PIPE AND FITTINGS

This quality chemical stoneware is not just surface resistant but is physically tough and corrosion proof throughout its entire body. It resists all acids and alkalis, hot or cold in any concentration.*

Knight-Ware Pipe is available in a variety of standard fittings and can be installed by any competent plumber. Where special sizes are needed, they can be made at relatively low cost because no molds are required, excepting HF and hot caustics.

**Knight-Ware neutralizing basins are available in five standard sizes.*

Acid Proof MORTARS

Knight has developed a line of special cements to meet almost any corrosive condition. **PERMANITE** Cement used with acid proof brick provides a floor or tank lining that resists acids, alkalis, solvents, oil, grease, water and steam.

Send for Bulletin No. A-F-8

Other types include

- KNIGHT NO 2—Silicate Base
- KNIGHTROBOND—Sulphur Resin Base
- KABO—Phenolic Base

Bulletin A-M-103

Acid Proof COATINGS

Pyroflex Lacquer protects tanks and metal work with a tough surface coating. It withstands severe corrosive conditions and may be applied by brush or spray to metal, concrete, wood or painted surfaces. Available in colors. Shipped in 1, 5 and 50-gallon containers.

Send for Bulletin No. A-C-860

KNIGHT-WARE LABORATORY EQUIPMENT

Knight-Ware Laboratory Equipment has all the properties of Knight-Ware Pipe as given above. It is available in a wide range of standard and special designs including:

- Sinks
- Table Troughs
- Acid Lines
- Fume Ducts
- Tanks
- Kettles
- Sumps
- Suction Filters
- Jars
- Towers
- Tower Packings
- Valves

Write for Bulletin No. A-KK-12

PYROFLEX CONSTRUCTIONS

The term Pyroflex Construction refers to complete functional units designed by Knight engineers which are built to handle almost any type of corrosive service. Besides Pyroflex, which is a Knight developed thermo plastic sheet lining, these units may incorporate ceramics, carbon, glass, graphite, plastics, lead or any other material best suited to the individual situation. Knight will design and build complete units or line large equipment in your plant.

Send for Bulletin No. A-TL-101
